## Trade Boards Open Convention Here To-morrow Island Business Leaders Face Busy Agenda

Waterpowers, Fishing, Logging, Traffic Regulations, Roads and Marketing Subjects of Resolutions to Come Before Delegates From Ten Organizations in Conference at Victoria.

Thirty delegates, representing ten boards of trade of Vancouver Island, will discuss a crowded agenda of important resolutions touching on matters of vital interest to the Island at the convention of the Associated Boards of Trade of Vancouver Island, which opens at the Chamber of Commerce to-morrow.

Waterpower, fishing and logging industries, traffic regulations, marketing and roads are subjects of resolutions to come before the convention, and never before in the history of the associated boards has the progress of the Island been so strikingly demonstrated as by the items listed for consideration at the two-day session.

### EARLY START

Some of the delegates arrive to-day and it is anticipated that the delegates from each of the trade boards will be in the city for an early start to be made to-morrow morning. The associated boards consist of the Victoria Chamber of Commerce, the Malahat Board of Trade, Duncan Board of Trade, Nanaimo Board of Trade, Qualicum Board of Trade, Saanich Board of Trade and the Port Alberni Board of Trade. Each is entitled to send three delegates, including the president.

Thursday noon the delegates will be guests of the Rotary Club. Thursday evening at 7 o'clock they will be supper guests of the Victoria Chamber of Commerce, with R. W. Mayhew, vice-president, presiding in the absence of P. B. Fowler, president. Friday the delegates will be guests of the B.C. Electric Company, where they will see the hydro-electric development at Jordan River. They will enjoy a trip in observation cars to the Jordan River.

(Concluded on Page 20)

## VANCOUVER TO VOTE ON NEW BRIDGE SCHEME

Ratepayers to Decide Burrard Plan; Federal and C.P.R. Aid Asked

Vancouver, July 10.—A by-law for construction of the proposed Burrard Bridge will be submitted to the ratepayers of Vancouver at the December civic elections and in the meantime negotiations will be opened with the Federal Government and the Canadian Pacific Railway for contributions toward the cost of the lower tier of a double-deck structure on the understanding that if satisfactory donations are not made the city will proceed with the plans for a single-deck structure. This in effect was the decision of the city council at a special meeting this forenoon, when the whole Burrard Bridge question was canvassed.

## T. L. CHURCH, M.P., IS SERIOUSLY ILL

Toronto, July 10.—Thomas L. Church, M.P. for Northwest Toronto, has suffered a relapse at his home here. Mr. Church was taken ill some time ago, being unable to attend the House of Commons during the last session. He is now reported seriously ill.

## HOME ECONOMICS COURSE IS ARRANGED AT B.C. UNIVERSITY

Vancouver, July 10.—First-year courses for students intending to take the proposed four-year course in home economics at the University of British Columbia have been announced by Dr. L. S. Klink, president of the university. No definite appointments have been made to the staff of the home economics faculty, but President Klink, who was authorized some months ago to secure a head for the proposed department, states that according to present plans, second-year work in the home economics course will be available for students during the 1930-31 session.

### WILL AWARD DEGREES

A special degree will be given to students who successfully complete the four-year course, which, it is hoped,

## MAINE FLIERS HOP FROM SPAIN TO ROME FIELD

Williams and Yancey Land Plane at Goal After Stop Near Santander

Break in Great Air Voyage Came When Gasoline Supply Exhausted

Rome, July 10.—The monoplane Pathfinder, completing its transatlantic flight from Old Orchard, Me., landed here at 9.30 to-night.

### LEAVES SPAIN

Santander, Spain, July 10.—The monoplane Pathfinder, manned by Roger Q. Williams, pilot, and Capt. Lewis A. Yancey, navigator, took off here at 11.20 a.m. to-day for Rome, continuing its flight from Old Orchard, Me.

Lack of gasoline forced the fliers down as night was falling over the northern Spanish coast, not far from the very spot where their French comrades of the monoplane Yellow Bird had been obliged to land.

Williams and Yancey said they had realized a few hours after leaving Old Orchard they could not reach Rome when they met head winds. Their 445-gallon gasoline supply was completely exhausted.

## Landslide On Japan Coast Kills Eleven

Tokyo, July 10.—Official dispatches state six persons were killed in a landslide which struck a fishing village.

Twenty-six persons were injured and five are missing. Thirty-one buildings collapsed.

## TRAIN ACCIDENT SENDS FIFTEEN TO HOSPITAL

Score Slightly Injured in Derailment of Cars in North Carolina

Rocky Mount, N.C., July 10.—Fifteen persons were injured in a train accident here this afternoon suffering from injuries received when fast northbound passenger train No. 84 of the Atlantic Coast Line was derailed one and a half miles north of Enfield, N.C. to-day. Twelve were women.

A score or more persons less seriously injured proceeded on their journey. The derailment occurred in Ruggles Swamp.

## IN MEMORY OF FLIERS

When they had flown 100 miles over the Atlantic from the Maine Coast toward Europe, Pilot Roger Williams and Navigator Lewis A. Yancey dropped a wreath in the ocean in memory of P. A. Payne, Lloyd Bertaud and W. H. Hill, lost last year on an attempt to fly the monoplane Old Glory from Maine to Europe. The picture shows the wreath being handed to the fliers at Old Orchard, from which both they hopped off aboard the monoplane Pathfinder.

## Heavy Weather Drives Salvagers From Vicinity Of Sunken Submarine

London, July 10.—The Admiralty announced late to-day that the position of the sunken submarine H-47 had been buoyed but that bad weather had forced the salvage fleet to withdraw temporarily to the shelter of Milfordhaven.

Pembroke, Wales, July 10.—The British submarine L-69 to-day dived in the vicinity of the sunken submarine H-47 and tried to communicate with it by sound telegraphy, but without avail.

The L-69 tried to communicate with the H-47 by sound telegraphy, using a bell with Morse code, but there were no answering signals.

Diver Bell, reputed to be the best in the navy, was taken from the battle cruiser Renown and equipped with a special German diving suit in which he will try to locate the missing men.

It was considered doubtful, however, that he would be able to descend to the 330-foot depth in which the H-47 lies, the depth being far beyond that practicable for diving operations.

SUBMARINE AT SCENE  
Pembroke, Wales, July 10.—An impressive array of live-saving apparatus, the most elaborate the British navy could muster, was in position early to-day over the spot where the submarine H-47 went down yesterday after collision with another undersea boat, the L-12, carrying men with it.

First efforts were to discover the position of the sunken vessel, which it was believed might have slipped from its original place in the heavy weather of last night.

A buoy was moored at the spot where oil bubbles indicated it had gone down.

DIVERS WORK  
Divers aboard a diving ship were ready to descend and attempt to fasten tackle to the vessel despite the great depth as soon as its position was ascertained.

Four mine sweepers, an anti-submarine flotilla of five vessels and seven destroyers searched the area while the lifting lighters made ready. All awaited a decision whether the navy's new deep-water diving apparatus could be used with any prospect of success.

ROUGH NIGHT  
Pembroke, Wales, July 10.—Rough weather and high seas in St. George's Channel last night were believed to-day to have vanquished whatever hopes (Concluded on Page 15)

## TRELLE'S GRAIN WINS AT CALGARY

Calgary, July 10.—Herman Trelle of Wembley, Alta., swept the board at the annual Exhibition and Stampede now under way here of all first prizes in the wheat and oats classes. He scored in registered spring wheat, hard red spring wheat and registered oats.

## CONSUL'S WIFE'S OPIUM ANGRERS CHINESE IN U.S.

Nationalists Want Mrs. Ying Kao Tried in China, Where Execution Possible

Woman Says Narcotic Put in Friends' Trunks Unknown to Her

San Francisco, July 10.—A demand that Mrs. Ying Kao, young wife of the Chinese vice-consul at San Francisco, be tried under Chinese law and be put to death if found guilty of her alleged part in bringing a large consignment of opium to this country, is being made by the executive committee of the Kuomintang of America.

The committee, representing the United States section of the political organization behind the Nanking Government, to-day announced it had voted here last night for the application of Oriental justice to Mrs. Kao's case and had demanded of C. C. Wu, Chinese Minister at Washington, that the woman be returned to China for trial.

### HEAVY PENALTIES PROVIDED

It was explained the National Government had enacted stringent laws against trafficking in opium in China and that those laws provided the death penalty in case of their violation by persons connected with the Government.

Mrs. Kao, upon the advice of friends, terminated his connection with the consulate.

### INVESTIGATORS AT WORK

Neither Mrs. Kao nor her husband has been placed under arrest. (Concluded on Page 15)

## Houde New Leader of Quebec Conservatives

Quebec, July 10.—Mayor Camille Houde of Montreal to-day was unanimously elected leader of the Conservative Party of Quebec by the 1,000 delegates gathered in convention here. Mr. Houde succeeded Arthur Sauve, leader since 1916, who resigned.

Prince of Wales Holds Investiture

London, July 10.—The Prince of Wales held a private investiture on behalf of King George at St. James Palace to-day. Wearing morning dress, the Prince walked from York House to St. James, where he presented insignia to persons in the list of birthday honors.

## BISHOPS DEBATE PRAYER BOOK

Clergy of Church of England Hear Views Expressed on Permissive Use

London, July 10 (By Thomas T. Champion, Canadian Press Staff Correspondent).—The prospect of disestablishment of the Church of England was feverishly debated to-day by the bishops of the Church of England, when the bishops and clergy of both the ancient ecclesiastical provinces of Canterbury and York assembled to-day to debate the new position caused by rejection of the revised Book of Common Prayer by the House of Commons.

In a sense the clergy, who constitute the lower house of both convocations, do not materially enter into the discussions, inasmuch as nowadays they merely constitute the House of Clergy, which is attached to the Church Assembly, the administrative body of the Anglican Church.

RESOLUTION DEBATED  
The chief interest attaching to to-day's debate, which will continue until Friday, lies in the resolution sponsored by the Archbishop of Canterbury, Most Rev. Cosmo Gordon Lang, as follows:

"That during the present emergency, and having regard to the fact that the Convocations of Canterbury and York gave their consent to proposals for deviation from the Prayer Book of 1662 as set forth in the Prayer Book of 1928, and to the fact that the Church National Assembly voted for national approval of these proposals, the bishops can not regard as inconsistent with loyalty to the principles of the Church of England the use of such additions or deviations as fall within the limits of these proposals. Accordingly, the bishops, in exercising their legal or administrative discretion, will be guided by the proposals set forth in the book of 1928, and will try to secure that practices consistent neither with the book of 1662 nor with that of 1928 shall cease."

## ROBB HERE ON HOLIDAY; GOING NORTH

Finance Minister Says Canada Doing Pretty Well Without Election Just Now

British Move For Empire Economic Conference Endorsed Here, He Declares

Hon. J. A. Robb, Minister of Finance of Canada, arrived in Victoria from Vancouver this afternoon on a tour of the whole west. "I have come out to get impressions of the country, industrially, financially and agriculturally," Mr. Robb said.

"It seems to me this is a good time for Canada to go on working, as the country seems to be doing pretty well without an election," Mr. Robb said to inquirers who asked about the possibility of an early Federal general election.

Mr. Robb was met at the boat and welcomed to Victoria by Stephen Jones, honorary president, and Francis Simpson, president of the Laurier Club. At the Empress Hotel a few minutes later he was welcomed by C. J. V. Spratt, Charles R. Bishop and William Ivel, representing Victoria Liberals.

Mr. Robb said he was sailing on Saturday on a trip to Alaska, and it was to be a vacation trip.

### USEFUL GATHERINGS

"Canada has always been favorably disposed toward joint discussion of problems of mutual interest to the nations of the Empire, and will undoubtedly consider with favor any suggestion from Great Britain for an Empire economic conference," Mr. Robb said.

"While I am out of touch with Ottawa and am not aware of any invitation from Right Hon. Philip Snowden, British Chancellor of the Exchequer, for the economic parity, suggested as a possibility of the near future in newspaper reports, I believe in the usefulness of such gatherings and would approve them," Mr. Robb said.

Mr. Robb admitted surprise at the reported declaration of Mr. Snowden against preferential tariff policies within the Empire.

"Newspapers have quoted Mr. Snowden as opposing such a system," Mr. Robb went on. "I have difficulty in believing Mr. Snowden was correctly quoted."

Canada had always been favorably disposed toward the preferential trade system, the Minister explained. Ever since the Dominion first pledged itself to the encouragement of preferential tariffs there had appeared no strong antagonism in this country. Nothing but good had ever come of the policy, he thought, and he never before had seen indication of serious opposition to it in other parts of the Empire. It was unlikely Canada would relish the scrapping of the preferential tariff.

### PREFERENCES HELPFUL

"Preferences have been helpful to Canada as well as other parts of the Empire," Mr. Robb went on. "The benefits have been mutual."

Speaking of Canada's own economic situation, Mr. Robb said the Treasury "is on easy street," and "no new borrowing is contemplated or required."

## B.C. Candidates Take Exams Of The Medical Council Of Canada

Ottawa, July 10.—The following British Columbia candidates passed the examinations of the Medical Council of Canada, entitling them to practice in any province of this country: A. S. Allen, Nanaimo; N. J. Burt, Vernon; J. A. Bickle, Ladysmith; H. J. Brown, Vernon; W. L. Cooke, Kaslo; J. R. Davidson, Vancouver; F. Grant, Revelstoke; H. Grant, Revelstoke; G. A. Lewis, New Westminster; and N. W. McLellan, Vancouver.

## Oxford-Cambridge Cricket Game Drawn

London, July 10 (Canadian Press Cable).—The Oxford-Cambridge cricket match at Lords was drawn to-day. The scores were:

Cambridge 377 and 220 for four wickets, aggregate 597.  
Oxford 246 and 202 for three wickets, aggregate 448.

## R.C.M.P. HEAD IS VISITING B.C.

Vancouver, July 10.—Commissioner Cortlandt Starnes is paying his annual inspection visit to the British Columbia division of the Royal Canadian Mounted Police. No changes in organization here are contemplated at present.

## California Airmen Far Surpass World Long Flight Record

Biplane Angelino Over Culver City, Carrying Pilots L. W. Mandell and R. B. Reinhart, at 12.29 p.m. To-day Passed Into 198th Hour in Air on Refueling Test.

## MINISTER TAKES VACATION TRIP

HON. J. A. ROBB  
Finance Minister of Canada, who arrived in Victoria to-day on a vacation trip which will take him to Alaska.

Culver City, Cal., July 10.—L. W. Mandell and R. B. Reinhart, endurance fliers, checked off another hour in their record-breaking refueling flight above this city at 12.29 p.m. to-day, when they passed their 197th hour aloft in the biplane Angelino.

At the same time the Wright Aeronautical Corporation, builders of the motor used in the Angelino, announced \$1,000 would be given to each of the fliers.

The record broken by the plane was 174 hours 59 seconds, set by Pilots Roy L. Mitchell and Byron K. Newcomb in the monoplane City of Cleveland over Cleveland, Ohio, June 28, July 6. The new record is the world's highest mark for all types of aircraft, planes and dirigibles, under all conditions.

## Australians' Flight to England Is Record

## SWEDISH PLANE LEAVES ICELAND FOR GREENLAND

Reykjavik, Iceland, July 10.—Captain Albin Ahrenberg, Swedish flier, and his companions, hopped off from Reykjavik for Greenland this afternoon in continuation of their delayed aeroplane flight from Sweden to the United States.

Croydon, Eng., July 10.—Captain Charles Kingsford-Smith and his three companions, completing a fast aeroplane flight between Sydney, N.S.W., and England, arrived at the Croydon airfield this afternoon from Rome.

Unofficial figures showed the Kingsford-Smith crew had established a new record for flights between Australia and Great Britain.

The Southern Cross left the Australian continent at Derby on the morning of June 27 and by arriving here this afternoon accomplished the journey in thirteen and one-half days, against the former record established by Bert Hinkler of fifteen days, one hour and seven minutes.

Even counting Sydney as the starting point of the Southern Cross, the plane lowered the time of Hinkler's machine by about an hour.

### OFFICIAL STATEMENT AWAITED

The Air Ministry this afternoon was endeavoring to figure out the exact official time of the trip.

Hinkler established his record in January, 1928, making the trip from England to Australia.

## EX-PRINCE OF ROUMANIA NOW PROVED PLOTTER

Bucharest Government Says Carol Linked With Group Arrested in Roumania

Bucharest, July 10.—Documents allegedly confiscated by the Government are proceeding along lines which might implicate various important political personages.

Premier Iuliu Maniu sent a messenger to Dowager Queen Marie requesting her to shorten her sojourn at Bled, where she was with her daughter, the Queen of Yugoslavia. Complete quiet reigned here. (Concluded on Page 15)

## Explosion In Mine In Wales Causes Deaths

Blancannon, Wales, July 10.—Four men were killed and several seriously injured to-day in an explosion in the Milfron coal mine.

It was feared the death list would reach eight, as in addition to the four bodies recovered, four men were still in the pit, where poisonous gas made rescue work difficult.

Physicians, undaunted by the fumes, descended into the pit with the reserve brigade. Most of those injured are suffering from burns, some severe. The pithead was transformed into a temporary hospital.

## NEW SECRET POLICE SENT TO CLEAN UP DIVES OF NEW YORK

New York, July 10.—Fifty young men, recruits all, picked for their youth, intelligence and fearlessness, to-day were designated by Police Commissioner Grover Whalen for a new job, a job colored with romance and surrounded by ever-present danger—the secret police of this city. To be unknown henceforth, except only by numbers, they form the nucleus of New York's "Scotland Yard."

He will travel alone, each secret service man, unarmed and without badge or other means of identification, down dark alleys and into strange dives in the mazes of the underworld of the metropolis. In the unenviable position of spy—about whose fate there would ever be uncertainty should his identity become known—he will fraternize with gangsters, rum-runners, narcotic peddlers and desperate characters generally.

A police officer with the rank of captain whose identity is known only to Commissioner Whalen and his confidential secretary has been placed in command of these fifty men. The captain will never meet any of his force face to face. He will know them only as numbers. They will never come into his office. All the reports will be made in writing or over the telephone and always by number only.

# NOTICE OF DEFAULT IS AGREED TO

City Council Formally Requests Payment of Amount Overdue on Elevator Bonds

Thirty Days' Notice to Be Given to Panama Pacific to Comply

A default notice giving the Panama Pacific Grain Terminals Limited thirty clear days in which to make good its agreement with the city, by the payment of \$7,700 outstanding on account of interest charges on the city-guaranteed bonds of the Ogden Point elevator, was formally passed by the Mayor and City Council at a special meeting held yesterday afternoon.

The formal notice will be sent by registered mail to the registered offices of the company in this Province, in care of Tait & Marchant, Permanent Loan Building, with August 12, 1929, as the date of expiry of the notice, after which, if satisfaction is not then forthcoming, the city may proceed to take what legal steps are open to it under the agreement.

Mayor Herbert Anscomb explained to the council that the second bond interest payment had been due on July 2, in the sum of \$13,700. The sum of \$5,000 had been received by the city on Saturday, July 6, and while there were assurances the \$7,700 outstanding would be paid, the city was advised to give formal notice of the default. In order to keep open its remedies in the event of no settlement being achieved.

**THE REMEDIES**

These remedies, it was explained to the council, could not be taken until thirty clear days' notice had been given of the default, and would then consist of a combination of remedies, including the right to apply to the courts for the appointment of a receiver; an action for foreclosure as mortgagee; or the exercise of the power of sale contained in the mortgage indenture.

Moved by Alderman J. L. Mara, and seconded by Alderman John Worthington, the city's decision to give formal notice of default was passed unanimously by the members of the council present.

Just prior to the meeting, explained Mayor Anscomb, there had been further assurances from D. S. Tait, representing the company, that the balance outstanding would be paid. In view of the large sum involved in the city's guarantee, however, he saw no course open but to take all steps necessary to protect the city's interests. The serving of notice of default was the first step, and if events should prove the action was not required, none would be the worse, while the city would be following out the terms of the agreement binding on both parties.

Disposing of the elevator issue, the council gave final passage to the amendment to the trades license by-law, recently discussed and adopted, and granted a conditional approval to the proposed subdivision of the Spencer-Crease property bordered by Fort, Moss and Rockland Avenue where, it was stated, the owners undertake to take care of road construction involved in a new subdivision. After a half-hour session the council adjourned.

## Other People's Views

Letters addressed to the Editor and intended for publication must be short and to the point. The longer an article the more chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the preservation or return to the writers of communications submitted to the Editor.

### PAUSING TO THINK

To the Editor:—Your editorial, "Pausing to Think," in last night's Times, is one of the most valuable contributions on current economic developments which I have read for some time.

Present indications are that the "tariff" will be the dominant issue in the next Dominion election, and the public cannot be better served by its press than by able presentation of facts and opinions bearing thereon. May I be permitted to express my appreciation of the good work you are doing in focussing attention on the fallacies of high protection?

Protection appears to be running wild in the great republic. The quotation from The Omaha World-Herald: "It seems not at all unlikely that protectionism, like many another monster which grows greedy, may kill itself," may be prophetic.

The Fordney-McCumber tariff of 1922, was supposed to be the goal of the high protectionists—all was going to be well in the good old U.S.A. In 1929, the great basic industry of agriculture is so sick that a special session of Congress is called to prescribe measures of relief. The only medicine the high priests of monopoly, who are in power, can prescribe, is more of the same old medicine—higher tariffs. There is no country in the world where protectionism has had a better chance to prove itself than in the United States. No policy is worthy of being considered sound that is not equitable in its application to producers and consumers alike.

That the protectionist policy in the United States is not equitable is easily demonstrated. Senator Brookhart of Iowa, speaking in the Senate, puts the matter very clearly: "Farmers should realize by this time that they are following a blind trail in pursuing the tariff as a remedy for their distress. It can help but little, even if revision is confined exclusively to agricultural products."

"When manufactured products are inordinately jacked up, the situation becomes so serious that I deem it necessary to direct attention of farmers to their peril. Farmers should be admonished that no matter how high rates are made on commodities which a surplus is being produced, they cannot be effective."

"If all the agricultural rates in the Fordney-McCumber tariff were effective, it would mean that farmers' incomes would be increased almost \$2,500,000,000 a year. As a matter of hard

## "CRADLE" OF ELECTRIC LAMP GOES TO FORD MUSEUM

The original glass-blowing shed in Parsippany, N.J., in which Thomas A. Edison perfected his carbon filament electric lamp, has been presented to Henry Ford for his Edison Museum at Dearborn, Mich., by the General Electric Company. Here you see the transfer of the historic old frame building, which will be moved to Dearborn. George C. Osborn, right, official of the Edison Lamp Works, is turning over the keys and papers to Henry Ford as Edison, centre, looks on.

## CROW'S NEST SHOWS PROFITS OF \$400,742

Toronto, July 10.—Crow's Nest Pass Coal Co. Limited annual report for year 1928 shows net profits amounting to \$400,742. The report was presented at the annual meeting held in Fernie, B.C.

The balance at the credit of the profit and loss account brought forward from 1927 was \$40,298. To this has been added the sum of \$400,742, being the company's net profit from all sources of the operations for the year 1928 after making provision for the Dominion income tax for the year 1928 amounting to \$30,689, making a total of \$441,041. From this amount was paid four dividends of 1 1/2 per cent each, making a total of 6 per cent for the year, and amounting in all to \$372,698, leaving a balance at credit of profit and loss to be carried forward to 1929 of \$68,343.

The operative profit of the subsidiary company, the Crow's Nest Pass Electric Light and Power Company Limited, for the year was \$10,732, all of which was transferred to depreciation reserve.

The operative profit of the subsidiary company, the Morrissey, Fernie and Michel Railroad Company and Michel Railroad Company Limited, for the year was \$44,562, all of which was transferred to depreciation reserve.

During the year the coal company spent by way of capital expenditures for improvements and development \$204,763.70; the Crow's Nest Pass Electric Light and Power Company Limited, \$9,432.42; and the Morrissey, Fernie and Michel Railway Company, \$10,254.49.

The coal mined during the year amounted to 920,953 tons, 1,420 pounds as against 870,689 tons, 1,290 pounds in 1927, and the coke produced was 68,734 tons, 1,450 pounds as against 65,280 tons, 1,855 pounds in 1927.

## Move For Empire Trade Conference Is Given Support

Ottawa, July 10.—In connection with the statement in the British House of Commons yesterday by Rt. Hon. Philip Snowden, Chancellor of the Exchequer, that the MacDonald Government was communicating with the other countries of the Empire to see whether it was possible to hold an Imperial economic conference, it recalled that London newspapers recently published without official confirmation reports that the Canadian Government was contemplating a new Empire trade agreement as a step toward the desired goal—increased intra-Empire trade. A conference between Great Britain and the Dominions had been mooted for some time.

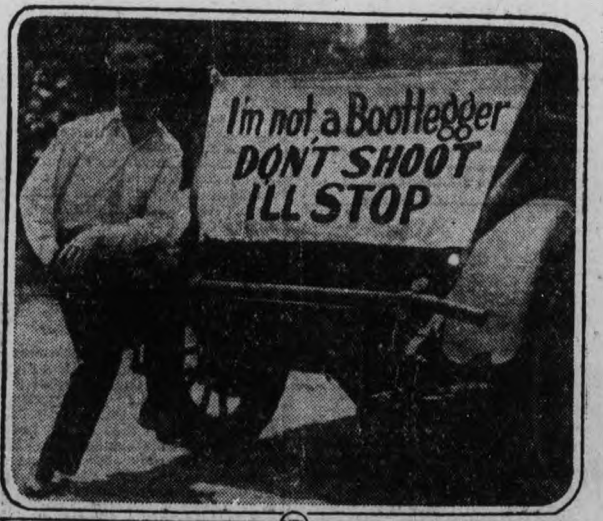

When questioned from London over the transatlantic telephone, Hon. J. A. Robb, Canadian Minister of Finance, at the time said there was decidedly a definite movement in Canada for development of greater trade within the Empire. Asked about the agreement, he said: "We have asked our agents to feel out the position."

Hon. H. S. Gillett, Australian Minister of Customs, some days later declared serious obstacles existed to any proposal to make the Empire one great economic unit, according to dispatches received in London. He asserted tariff concessions between the Dominions were only possible where they were not made at the expense of local industries.

## VANCOUVER MAN KILLED BY AUTO

Vancouver, July 10.—John Cardwell, B.C. Electric Railway car conductor, was almost instantly killed late last night when he was struck by an automobile at Cambie Street and Twenty-fifth Avenue. Cardwell, found in a dying condition on the street, is believed to have been the victim of a hit-and-run driver. He had been for eighteen years an employee of the B.C. Electric Railway.

## PLAYING SAFE WITH DRY AGENTS

That old adage about "an ounce of prevention is worth a pound of cure" is taken literally by N. M. Butterfield of Los Angeles. Having "read in the papers" of prohibition killings in various sections of the United States, Butterfield decided that a fellow named Butterfield, who lived in Los Angeles would never be shot by a dry agent through a case of mistaken identity. And when he goes riding, the sign pictured above is always to be seen on his automobile.

James T. Maher, Dr. G. W. Howland, James F. Edgar, L. C. Gilman, C. Bockling and H. P. Wilson.

Officers elected were: President, W. R. Wilson; first vice-president, A. H. MacNeill; second vice-president, L. C. Gilman; general manager, H. P. Wilson; treasurer, A. Klauer; comptroller, George H. Hess Jr.; and secretary, J. S. Irvine.

## Department Store Sales Show Gain

New York, July 10.—June sales of 448 department stores increased 1.4 per cent over sales for June, 1928. Federal Reserve reports to-day show daily average sales for the month were up five per cent.

## Niagara Falls Hotel Joins United Chain

Toronto, July 10.—The King Edward Hotel Company, operating the King Edward Hotel at Niagara Falls is reported as accepting the offer to join the merger of eighteen United Hotels in Canada and United States and four American Hotel Corporation hostels.

## MOTOR OUTLOOK OPINIONS VARY

New York, July 10.—Dealing with the motor trade outlook to-day, H. P. Bliss says:

"Wall Street clings to the idea of a sharp curtailment in motor car production in the second half of the year and most of the selling in the automobile group is based on that belief. We believe it to be possible that the curtailment in the second half profits of the leading manufacturers may not be nearly so severe as feared, and furthermore, that the motor shares are in a stronger market position than might be supposed from the manner in which they gave ground earlier this week. We would be more inclined to buy the stronger units in the group than to sell them on weakness."

## Noble Five Mill Running 100 Tons

Vancouver, July 10. (Stobie, Forlong-Meharey, Roe)—Noble Five is developing on several faces at the

## ECZEMA GOES

New Ointment Quickly Relieves Itching, Burning, Inflammation

No matter what else you have used, just try "Sootha-Salva." This prescription of a famous physician has brought such quick relief to thousands of sufferers that you can count on its soothing the itching and burning, healing the raw surfaces, and completely clearing your skin of torturing Eczema. 50c at all druggists.

It costs you nothing if you do not benefit. After using two boxes of "Sootha-Salva," if you are not satisfied, just return the empty tins to Fruit-A-Lives Limited, Ottawa, Ont., and we will refund your money. (Adv.)

same time, making profit on development ore running through the mill at the rate of 100 tons a day, it is revealed in a recent survey of the situation.

Much of this ore, which is "paying the way," is from the most recent body of ore at the property and which has been, partly blocked out by a 200-foot tunnel and 100-foot raise. The extent of the body is still unknown.

## Fairbanks Scales

For almost a century Fairbanks Scales have been known for their enduring accuracy, and each one of the many types has been perfected in design and build, to weigh not only accurately but also to register clearly at the utmost speed. From tiny delicate balance up to huge track scale, the Fairbanks line includes scales for practically every weighing purpose.

## Fairbanks-Morse pumps and motors

"A pump for every purpose"—for water, sand, air, sewage or stock, we can supply the special type of pump best suited for the service required. Fairbanks-Morse Pumps, either separate drive, or direct-connected to Fairbanks-Morse Ball Bearing Motors, have made unusual records for efficiency and dependability.

## F-M. Stationary Diesel Engines

For isolated power plants where electric power is not available, and for standby service, Fairbanks-Morse Diesel Engines have proven thoroughly dependable and remarkably low in power, operation and maintenance costs. In mine, mill, grain elevator, railway yard, town and city light, power and pumping plants, in countless instances they are giving entire satisfaction using cheap low grade fuel oils. They are made on the 2 cycle principle in a wide range of sizes from 25 to 840 H.P.

## Norton Grinding Wheels

For quickly removing metal, for cutting off, for producing a high finish on any material, for any service where grinding wheels can be used, you will find a Norton Wheel that will cut quicker, or produce a higher finish, or turn out more pieces at a lower cost. Norton Wheels are carried in stock at all branches and at your service are men who have made a study of removing metal by grinding. They will tell you the right wheel to produce the most work at the lowest cost.

## Transmission Equipment

To ensure the steady and economical flow of power from drive to machine, proper shafting, hangers, bearings, pulleys and belts are essential, and here you will find Graton & Knight Leather and Dick's Balata Belting, Fairbanks Wood Pulleys, Barry Steel Split Pulleys, Hyatt Roller Bearings, as well as all the numerous appliances necessary for the transmission of power.

In our thirteen Branches you will find stocks of mechanical equipment and shop supplies that for variety and quantity are unequalled in Canada. Aside from the many lines made by us, we have been selected to represent many of the world's outstanding makers of machine tools, machinery, equipment and supplies. Our general catalogue shows clearly how wide a service we provide for Canadian industry. A copy will be mailed without charge.

## AUSTRALIA TO CHANGE LABOR ARBITRATIONS

Premier Bruce Decides Federal Government Will Leave All to States

Canberra, Australia, July 10.—Possibly the most important decision Premier Bruce has ever called on to make is that involved in his announcement to the Premiers of the six states of the Commonwealth of Australia, that the Federal Government will shortly refer from practically the whole field of industrial arbitration. No characteristic of Australian social life has excited more interest among foreign observers than the system of compulsory arbitration for the settlement of industrial disputes. Although the system will remain, the leaving of its administration exclusively to the states may affect the country's industrial life and even commercial conditions.

Under the federal constitution the Commonwealth has power to intervene in industrial disputes only if they extend beyond the boundaries of one or more States. One undesirable effect of this clause is that disputes have been at times artificially created in order to invoke the jurisdiction of the federal court. And on their refusal he decided the federal laws must be repealed in order to let the states resume complete control, except for one or two industries such as shipping, from which their nature demand federal direction.

As an instance of the way in which the existence of the federal system is undesirable to the states, it may be mentioned that at present a federal court could be adding a few shillings to the wages of railwaymen (who are state employees) compel a state treasurer to make a budget annual sum which he will never subscribe.

On several occasions—most recently in 1928—the Commonwealth tried by referendum to obtain an alteration of the clause in the constitution limiting its powers; but the electors always gave a majority vote for "No." At a recent meeting of state Premiers in Canberra Mr. Bruce invited them to ask their Parliaments to surrender their arbitration powers to the Commonwealth; and on their refusal he decided the federal laws must be repealed in order to let the states resume complete control, except for one or two industries such as shipping, from which their nature demand federal direction.

INTER-STATE COMPETITION

Another anomaly of the existing situation is that the basic or living wage, upon which rates for many industries are fixed, is calculated by the federal courts at several shillings higher than by the state courts. That is to say, there is a tendency to create two standards of living for the workers. On the other hand, in an industry carried on all over Australia under a federal wages and hours award, the possibility of inter-state competition is diminished. Under the federal constitution customs taxation is transferred to the Commonwealth, and thus with inter-state free trade the abolition of federal wages and hours awards might give a state with a relatively low living wage, an advantage over another state in manufacturing.

Views Differ

"The change proposed is momentous and drastic," said The Sydney Morning Herald, "and one that should have been made by a referendum of the people. But such hesitation cannot withstand a study of the twenty-five years' history of federal industrial legislation, taken as bills in parliament with every evil insinuation, and latterly so flagrantly defied by the unions as to become utterly useless. Mr. Bruce's part yesterday was but to bury federal industrial arbitration, the Labor party had already killed it."

Less favorable The Sydney Sun remarks that it is true that "in ridding itself of most of the very prickly problems of industrial arbitration the Federal Government would attain a certain Olympian detachment from the hurly-burly of everyday affairs, and cut a great deal of the ground from under the feet of the Opposition, whose chief claim to administrative power is made on industrial affairs. Yet to those who regard the Commonwealth as a nation in which the central power must eventually be paramount, this proposal would seem a step backwards. This proposal would doubtless be made with the best of intentions, but it is a pity that it should be made either by the Government or people of the Commonwealth."

Winnipeg, July 10.—While many people throughout the United States and Canada were listening to the thanksgiving service held Sunday at Westminster Abbey for the recovery of His Majesty the King, which was broadcast from London and rebroadcast over Canada and the United States, passengers on the eastbound "Confederation," the Canadian National Railway's crack radio-equipped train running between Toronto and Vancouver, were also given the opportunity of joining in thanksgiving for the recovery of the King.

Late Saturday night Radio Operator H. Morgan tuned in on KDKA, Pittsburgh, where he heard the announcement that that station would attempt to rebroadcast the service. When Morgan returned to the controls early Sunday morning, there were four passengers in the car who heard him remark that he would listen in. He started to tune in when the train passed Strong, Sask., at 2:35 a.m., mountain standard time, and at 2:50 a.m. he succeeded in getting in touch with the station. Finding the rebroadcast from KDKA a little faint, he turned on KSL at Salt Lake City, where the reception came in quite clear and loud.

The service which was broadcast from 5LW at Chelmsford, England, was picked up by KAA at New York and then rebroadcast throughout the United States.

### THANKSGIVING SERVICE HEARD ON C.N. TRAIN

Eastbound "Confederation" Passengers Join in Service With King

Winnipeg, July 10.—While many people throughout the United States and Canada were listening to the thanksgiving service held Sunday at Westminster Abbey for the recovery of His Majesty the King, which was broadcast from London and rebroadcast over Canada and the United States, passengers on the eastbound "Confederation," the Canadian National Railway's crack radio-equipped train running between Toronto and Vancouver, were also given the opportunity of joining in thanksgiving for the recovery of the King.

Late Saturday night Radio Operator H. Morgan tuned in on KDKA, Pittsburgh, where he heard the announcement that that station would attempt to rebroadcast the service. When Morgan returned to the controls early Sunday morning, there were four passengers in the car who heard him remark that he would listen in. He started to tune in when the train passed Strong, Sask., at 2:35 a.m., mountain standard time, and at 2:50 a.m. he succeeded in getting in touch with the station. The service which was broadcast from 5LW at Chelmsford, England, was picked up by KAA at New York and then rebroadcast throughout the United States.

### Suggestion Is Made Old Bank Guard In London Be Ended

London, July 10.—A revolutionary suggestion was made in the House of Commons yesterday. For the last 150 years one of the sights of London has been the nightly march along the Thames Embankment of what is known as the "Bank Guard," one of the former Prime Ministers, asked how much the bank paid for that service, Rt. Hon. Thomas Shaw, Secretary for War, replied the bank paid nothing as under the statute it acted as banker for the Government and had custody of the gold reserve.

In the discussion which followed, Ernest Thurtle, Laborite, suggested the guard be abolished. "Here the matter rests," Secretary Shaw having promised to take the matter under advisement.

## MAJORITY ON VOTE IN BRITISH COMMONS IS 120

MacDonald Has Unexpectedly Large Lead on First Division

London, July 10.—On its first division the new Labor Government last night secured a majority of 120 votes in the Commons. It came on the defeat of the Conservatives' safeguarding amendment to the address. That the amendment would be defeated was accepted as a foregone conclusion when it first appeared on the order paper. As opposed to safeguarding as Labor, the Liberals were certain to ensure the defeat. But so large a majority was scarcely expected. And as the whips announced the figures a roar of cheers broke from the packed Government benches. The vote stood, says, 340, ayes, 220, majority against, 120.

From the figures it is observed that a number of Conservatives were absent or did not vote. There were 261 Conservatives elected in the general election, or forty-one more than supported the Conservative amendment. On the other hand, the vote against the amendment almost equalled the combined number of Liberals and Labor members returned.

The Conservative amendment read: "The failure of your Majesty's Ministers to make any plain declaration of the policy in regard to safeguarding, the McKenna duties and analogous duties and to the maintenance of Imperial preference, creates a condition of uncertainty prejudicial to trade and the employment of the people." It was moved by Sir Philip Cunliffe-Lister, former President of the Board of Trade.

EMPIRE CONFERENCE

During the debate Rt. Hon. Philip Snowden, Chancellor of the Exchequer, said the Government was communicating with the other countries of the Empire to see whether it was possible to hold an Imperial economic conference. The object would be to discover ways and means of extending intra-Empire trade.

The MacDonald Government, the Chancellor declared, "is most anxious to promote the closest trade relations with every one of the Dominions, with every part of the Empire, but we do not believe those trade relations can be placed upon the best footing of mutual advantage by a system of preferential tariffs. Joseph Chamberlain said, 'You cannot have Imperial preferences without a tax upon food and raw materials.' That is a policy which we will never subscribe."

TEA IMPORTS

Mr. Snowden said that in the last budget the Baldwin Government had not been so particular about retention of Imperial preference. In abolishing the duty on tea it had abolished the preference with it, the preference given to Indian tea. He hoped that before the Labor Government left office it would be able to remove the duties from foodstuffs, and preferences would naturally go with the duties.

The Government, he said, had no intention of abolishing the Empire Marketing Board. "We are not against Empire trade," he said in concluding. "We want Empire trade."

COMMUNICATION AWAITED

Ottawa, July 10.—The Federal Government has not yet received a communication from the Government of Great Britain asking whether or not it would be possible to hold an Empire economic conference. This was stated at the Department of External Affairs when the attention of the department was drawn to the statement of Right Hon. Philip Snowden in the British House of Commons that such communications were being sent to the various Dominions.

NO COMMENT

Calgary, July 10.—Hon. R. B. Bennett, Federal Conservative leader, refused to comment last night on the statement of Rt. Hon. Philip Snowden concerning the proposed Empire economic conference. He said he would not like to comment upon it without first considering the purport of the dispatch in question.

### Underground Freight Railway For London New Plan Discussed

London, July 10.—Rt. Hon. J. H. Thomas, Lord Privy Seal and Minister charged with solving the unemployment problem in Great Britain, is said to be considering a scheme proposed by Viscount Elbank for the construction of an underground freight railway in London.

Seventy-five miles of tracks would be required to link all the railway stations and big emporiums, with fifty-four stations for collection and delivery of freight. Viscount Elbank estimates the work would cost about \$200,000,000 and would provide four years' work for 70,000 men. He says the money could be easily obtained, and the Government would only be asked to guarantee the interest on the capital outlay.

Most of the tribes are under white rule, but a few on Malekula and Sauto Islands, are still independent. In rough mountainous country the Numbas tribes cling to barbarous customs. Women are still held as property, and are obtained by purchase, the price varying according to attractiveness, from twenty to thirty pigs. When inter-tribal wars occur old muzzle-loaders, relics of Bully Hayes and the black-birding days, are used. A victory is sometimes followed by a cannibal feast. Even when there is no fighting wild religious rites at times demand a human sacrifice—usually a straying native from another village, or a man previously captured in war. Such horrors are exceptional, but, according to this missionary, beyond doubt.

One of the strongest influences for civilization is the chiefs' desire to procure medical service from the missions, whose results among a population ravaged by disease are putting the witch doctors out of favor.

HUNT IN ALASKA

Seward, Alaska, July 10.—Six John Mullahs of England and a party will arrive in Alaska September 2 or 3 for a week's big game hunting under the auspices of the McKinley Tourist Transportation Company. James L. Galen, head of the organization, announced yesterday. Caribou and sheep will be hunted in the Weed River country.

### 1,000 MEN NOW AT FLIN FLON

Flin Flon, Manitoba, July 10.—Operations on an impressive scale are being rapidly carried forward in the work of preparing the Flin Flon Mine of Hudson Bay Mining and Smelting Co. Ltd. for production, along with the advancement of construction of the various adjuncts to a major metal industry. Ranking among the largest in the mining history of Canada, this operation has been expanding until at the present time there are nearly 1,000 men engaged in the big task of bringing to production Manitoba's biggest mining project.

Work has been speeded up considerably by the provision of power from an auxiliary plant, capable of developing 1,500 horsepower. The power from this plant is being used in the work of construction, and for such development as is under way. At the moment mining is concerned almost solely with the sinking of the new main working shaft.

A pilot raise has been run from the 390-foot level, and this connected by sinking operations on the surface. Widening of this and the installation of steel shaft sets will occupy another month, possibly, and when completed the new shaft will represent one of the biggest in Canada. It is a five-compartment working, 13½ by 19½ feet, all steel, and absolutely fireproof.

Meantime, erection of various mine buildings is under way and a complete and modern town is springing up to serve the employees of Flin Flon. Initial production, as has been indicated, will probably be at the rate of 3,000 tons daily, for an output of about 1,000,000 month.

U.S. POST OFFICE DEFICITS

Washington, July 10.—President Hoover has been informed the Post Office Department faces an estimated average annual deficit of \$85,000,000 over the next five-year period.

### British Troops On The Rhine Abandon Manoeuvre Plans

London, July 10.—No manoeuvres or inter-brigade operations will be carried out by the British army on the Rhine this year. Right Hon. Thomas Shaw, Secretary for War, made this announcement in the House of Commons yesterday.

The Government would not willingly cause either inconvenience or annoyance to the civilian population, he said.

The War Secretary's announcement was greeted with ministerial cheers. Sir Alfred Cox, Conservative, asked the Secretary: "Would you consider the desirability of promoting still further goodwill by directing the commanding officer of the army of occupation on the Rhine to offer the services of the officers as 'nursery maids or mothers' helpers?" No answer was returned, but there were loud cries of protest from the Government benches.

### Auto Runs By Radio Control

Toronto, July 10.—A large number of persons watched with interest a plane several thousand feet in the air controlled by radio an automobile on the Leaside flying field here last evening. The car, without passengers, moved around the field, apparently operating its own starter, steering wheel and brakes and occasionally sounding the horn at the evident approach of obstacles.

Miss Gloria Hall, Los Angeles aviator, operated the radio control key board in the plane.

NEW PLANE SERVICES

Manila, July 10.—A permit was granted yesterday for the establishment of the Aviation Corporation of the Philippines, with a stated capital of \$5,000,000. Twenty planes have been ordered from the United States for passenger, mail and freight services to be started in November between Philippine points.

**OUR COLD STORAGE PLANT**

**COLONEL GEORGE B. LAMPING** TOLD the Kiwanis Club at its luncheon on Tuesday that if Victoria wants to avoid Seattle's experience with its cold storage plant, its citizens will lose no time in getting behind any movement likely to provide the produce which the establishment is intended to receive.

For two years, Colonel Lamping recalled, the Seattle plant stood empty and looked like being a permanent white elephant; but at the present time the establishment in the Sound City is unable to handle more than twenty per cent. of the business offered, although it is one of the largest of its kind on the Pacific Coast.

It is easily explained. The people of Seattle looked around them and discovered that adjacent to the settled area they had all the facilities for the production of the various foodstuffs which could be stored in the plant. Under the impetus of local enthusiasm intensive development began. It has been expanding ever since, with the result which Colonel Lamping described. Not only is the surrounding rural area supporting a large and prosperous population; the city of Seattle itself has grown in an almost unbelievable manner in the last ten years.

What Seattle did, surely Victoria should be able to do, and ought to do. The Saanich Peninsula, Melchosisen, Sooke and Colwood—sections of the southeastern end of Vancouver Island over which the late Luther Burbank waxed enthusiastic a few years ago—should be producing berries and other fruits, poultry and eggs, in sufficient quantities to demand considerable cold storage accommodation. Our waters, teeming with fish, should be producing greater yields than they are at present. These are matters in which the citizens of this community should be concerned in their own interests.

It simply means that this cold storage business could be made the starting point of new rural and urban expansion. For if the plant is to be a successful venture, we ourselves shall have to find the stuff to put in it. And by filling the establishment, as the outlying districts of the southeastern end of this Island increase their production, so will Victoria grow and prosper.

**FREE TRADE VERSUS PREFERENCES**

**ON MANY OCCASIONS** THE TIMES has argued that if the British Empire desires to trade more intensively with itself, the various countries of which it is composed should abolish all their artificial barriers and do business without tariffs. This is by no means an argument in support of a British Empire tariff against the rest of the world. To adopt that policy would be to defeat the object of the main arrangement. There are certain raw materials which Canada needs for some of her most important industries which no British country can supply. The same condition applies still more forcibly to many of Great Britain's industries.

We have not yet been told exactly what the Dominion Government intends to do to implement its announcement that ways and means must be found to develop inter-empire trade. We may assume that the Prime Minister and his colleagues have been waiting to see what attitude towards the subject the new Government of Great Britain would adopt. Mr. Snowden's announcement, which shows that Labor's view of Imperial trade has not changed since 1924, has made it abundantly clear that if British countries are to become more intimately associated economically, they need not look for any sort of tariff concessions from Britain. By this it would appear that the Government at Westminster would be ready and willing to join with the rest of the Empire in the establishment of a complete free trade arrangement so long as it did not involve any threat of a tariff war against the rest of the world.

It no doubt will be said by some of our politicians that neither Canada nor Australia would be able to survive such an arrangement. There is no solid ground upon which to base this argument. Although agriculture is the backbone of this country, it must be remembered that in the last few years our industrial production has increased enormously; yet, by comparison with older countries, we have only just begun to put up our factories. And this is the point to remember. We have in this Dominion vast stores of raw materials, the exploitation of which, within the next few years, should give us a vastly higher ranking among the producing nations than we at present seem possible. But no such development need be expected if we rely upon tariffs on this and tariffs on that. The life-blood of human endeavor is competition. What Canadian manufacturer has a right to say that unless he can hide behind a tariff wall he cannot compete with the foreigner?

Canada often is compared with the United States in this matter of industrial production. It is not a fair comparison in the main; even at that, however, we have only to consult history to learn that our progress proportionately compares more than favorably with that of our neighbor. Canada also is an exporting country, and the amount of the goods we shall export in the next few years will depend entirely, not upon the amount of tariff protection we give to our manufacturers, but more upon the methods we adopt to convince British and foreign peoples that Canadian products are second to none. In this regard, perhaps, we may consider the progressiveness of the United States. It now is common knowledge that our neighbor is cultivating the great Oriental market as no other country is cultivating it. Against this, Canada has one trade commissioner in China and another in Japan. From these two offices the official bid for business goes to more than 500,000-000 people! It will be understood, of course, that many firms have their own representatives in the

Orient; but it seems to us that the governmental drive for trade in such a promising market is far from as whole-hearted as it might be. It might well be said that we expose ourselves to the suggestion that we are not keen about this business.

We are not in a position to say in what mood the representatives of other British countries would go to such an Imperial Economic Conference as Mr. Snowden says the British Government intends to call; but we do say that the future progress of Canada in an agricultural and an industrial sense would be reliably assured by a policy of free trade within the Empire without any increase in its tariffs against the rest of the world. This Dominion, incidentally, will not commit the errors which other countries have committed: It always will preserve an even balance between urban and rural activities.

Canada, moreover, certainly never will support the amazing proposals which Lord Melchett some time ago propounded in an article advocating an "Empire Economic Union." Here are the exact words he used in his priceless suggestion: "The main basis of the new policy would be that Britain should be the senior partner in manufacturing, and the various Dominions and other component parts of the Empire the senior partner in the production of foodstuffs and raw material."

Nor would Canada, if there is to be an Imperial economic arrangement, submit to any outside interference with her domestic trading arrangements. Her destiny is a great producing nation under all heads. With a varied array of natural resources at her command, she should be in a position to attain her ends. But we repeat that it will be by going after business that she will succeed, by showing the other fellow that she can compete with him in the markets of the world, not by trade-restricting tariffs. The home market will take care of itself, as greater production will insure larger population.

#### WHAT NEXT?

**WHEN TWO AVIATORS** RECENTLY remained in the air for more than 170 hours and established a new world endurance record, even experts doubted if it would be beaten for some time to come. But that record has been shattered to smithereens. For more than 200 hours two airmen have kept their machine flying over Culver City, and at this writing they were still aloft.

There is very little for the layman to say about this. All he can do is get it firmly in his mind that for eight and three-quarter days these two men have been in continuous flight with only the refuelling business to vary the monotony. The machine, of course, has facilities for "slumber." But the kind of sleep one would get in an aeroplane in flight may be left to the imagination.

As we gasp at the achievement we may ask two questions. What manner of man is this who can stand such a strain? What has the future in store for a machine which flies for more than eight days without developing any serious mechanical defect? It is open to anybody to supply the answers.

#### PAYING OUR DEBT

**ON AUGUST 1** A LOAN WHICH was floated in New York in 1919 falls due and Canada will pay it off in full and save \$3,300,000 annually in interest.

When this obligation has been met Hon. Mr. Robb will have paid off nearly \$300,000,000 of the country's debt in less than seven years. This is only about \$13,000,000 less than the total national debt before the war. But this is by no means the whole story. Not only has the Dominion's obligation been so materially reduced, but there also have been substantial cuts in taxation. Yet, in spite of this, revenues have increased and trade has continued to expand.

The Minister of Finance, of course, is following a sound principle in paying off these loans at maturity wherever possible. For at present he requires no less than one-quarter of the total revenue of the Dominion to meet interest charges on money borrowed mainly for war purposes.

#### NOVA SCOTIA'S ATTRACTIONS

The Ottawa Citizen

Every part of Canada has its special attractions for tourists, but Nova Scotia seems to include them all besides having a claim of its own which, to those who have experienced it, is the greatest attraction of all. Alive to the advantages of the tourist trade, the Provincial Government of Nova Scotia is leading in the good work of making known to the world what a holiday in Nova Scotia means in enjoyment and true recreation. One of its latest efforts in this direction is a handsome booklet—so-called, but it is really a book—"Nova Scotia, the Ocean Playground," which in letter-press and picture presents the province to the tourist in well-nigh irresistible fashion. This publication is issued under authority of Hon. Percy C. Black, Minister of Highways.

Those who have done the work have wisely made a book which is so attractive, so impressive, so downright useful, that it will hardly be thrown aside even by the busiest person. It will have the effect of a repeated invitation to come and spend just the kind of holiday that the person concerned most dreams about. Sportsman, motorist, nature-lover, rest-seeker—whatever the holiday life one most desires, here are pictured and described the most perfect opportunities for its enjoyment.

#### A THOUGHT

Enter not into the path of the wicked, and go not in the way of evil men.—Proverbs iv 14.

No man can be stark naked at once. Let us stop the progress of sin in our soul at the first stage, for the farther it goes the faster it will increase.—Pulley.

**Loose Ends**

Science discovers some interesting things—but is only at the beginning and may yet burn up the whole universe—while the United States, Japan, behind with medieval methods of conducting war—and France sacrifices its whole fleet to bulbous silhouettes and baroque carouches.

By H. B. W.

**IF YOU** ever pause in a rare lucid moment to wonder whether the human intellect is making any progress or not, think upon these things which a scientific investigator has recently found out for The New York Times. While statesmen are subordinating everything else to the supreme problem of maintaining world peace, science lately has developed some weapons which, if they are ever used, will make the Great War appear about as alarming as the recent militia manoeuvres along the shores of Cowichan Bay. While these weapons include interesting new gases, which will exterminate all life over hundreds of square miles, they are nothing to what science expects to achieve if statesmanship will give it a few more years of research before this still newer equipment is needed. It will include large aerial armadas, directed by electricity which will destroy cities in a few minutes when someone hundreds of miles away, presses the proper button.

**EVEN THAT** is not the ultimate hope of science. "All these weapons," The New York Times investigates, "fade into utter insignificance when we come to consider electricity as a destructive agent in warfare. Here are the weapons of the day after to-morrow. No man can say precisely what their nature will be; all we can do is guess at their appalling destructiveness. We may shrink at the vision of an aerial armada flying at 500 miles an hour, carrying huge bombs to destroy whole cities, spraying the earth with pestilence and liquid; but there are worse things in store, more deadly, more accurate, against which there seems little chance of defence."

**WHAT SCIENCE** has in mind here is the use of direct electricity, sent in the form of a ray over large distances to electrify all life in its path. The death ray is not a fact yet, but according to Dr. Phillips Thomas of the Westinghouse Electric & Manufacturing Company, who has conducted some successful experiments in the transmission of electrical power by radio, there are no insuperable difficulties in the way of its development, and science never gives up hope. It would have to be sent in a beam like that already developed. It would require a four-inch wave length. We haven't developed that yet, but Dr. Thomas is at work perfecting one of the right type and reports that he has it all worked out satisfactorily on paper. And if such an instrument were ever used, The Times investigator concludes, the very foundations of civilization would be blasted or burned away, and the horrors of Dante would be the delights of Pan in comparison.

**EVEN THAT**, wonderful as it is, does not represent the ultimate hopes of those who are preparing for the next war. They look to the smallest thing we know, the electron, to provide their supreme achievement. Electricity is composed of electrons, which are an infinitesimal component of, and far smaller than the atoms. If the atom could be split up and its electrons reassembled the process would involve a release of energy dwarfing anything we can imagine. One scientist has computed that a teaspoonful of water thus treated would provide enough energy to drive the Mauretania across the Atlantic. A pond of water, it is calculated, would blow the entire world into small pieces, and a good-sized lake would destroy the entire solar system. And if man ever discovers the secret of dividing and re-uniting the electrons, we are told in all earnestness, it is probable he could not control this process, which would go until "the whole universe would be fired like a train of gunpowder." Thus there is even hope that science, given a little more time, may yet release Dr. Kermode from her cage in Beacon Hill Park, and solve the parking problem on Douglas Street.

**APPARENTLY** THE United States is backward in this great forward movement, for a Toronto scandal sheet called "Push," the "Newspaper With a Heart," informs the Canadian people that its neighbor is about to pounce upon it and seize its whole country. Indeed, it "awaits but the hour to strike." Andrew Mellon, Secretary of the United States Treasury, we are told, has in storage terrific supplies of poison and irritating gases. United States grain ships on the Great Lakes are all ready to be converted into armed cruisers, uniforms are in storage in military depots and things generally are such that Canada should make a defensive alliance with Mexico and Japan.

**THE** medieval States thus has rather not yet learned how to conduct it on the grand scale with death rays and universe-shattering electrons. On the whole we needn't stop our holidays to worry about such a weak threat. The Newspaper With a Heart, however, made another discovery which must have ruined someone's holiday. It announced on its first page that, for the little party planned for the St. Catherine's Horse Show have made their reservations at Niagara Falls, be careful! One of your wires is ON! With a heart indeed.

**MEANWHILE** FRANCE, most artist-minded of nations, is moving to take the brutality and ugliness out of war. George Leygues, the French Minister of Marine, distinguished alike by his long record of public service and a mustache which outdoes that of the most successful walrus, has hit upon a plan which offers much comfort to the advocates of peace. He cannot at the moment reduce the French Navy, but at least he is deter-

**KIRK'S WELLINGTON COAL**

"Does Last Longer"

mined to make it easier to look at France's new battleships, under M. Leygues' orders, are to be decorated with sculpture and bas-reliefs. An elderly sculptor of the old school, named Moreau-Vauthier, is charged with the solemn task of making a dreadnought a work of art.

**APPARENTLY** THE idea has met with approval from those who do not know art, but artists are alarmed. Not at the decoration of battleships but at Mr. Moreau-Vauthier's sculpture. They fear now that France's battleships will be made too artistic, but that they won't be artistic enough. "We learn," wrote one Paris art magazine, "that M. Moreau-Vauthier is disposed to decorate with bulbous figures and cartouches, more or less baroque, guess what—the prows of our cruisers! The interior would be bad enough, but the exterior 'alouettes!' Nevertheless, France, determined to do its bit for peace, even at the price of disgracing its whole fleet, will flaunt its bulbous figures and baroque cartouches to the world in ghastly silhouette, perhaps hoping that the nations, appalled at such a spectacle, will give up war altogether."

**The Weather**

Daily Bulletin Furnished by the Victoria Meteorological Department

Victoria, July 10, 8 a.m.—The barometer remains low over the interior and cooler weather is reported on the Pacific Slope. Local showers have occurred in Alberta.

**Barometer**—Victoria, 30.00; temperature, maximum yesterday, 67; minimum, 50; wind, 14 miles S.W.; weather, fair.

**Vancouver**—Barometer, 29.92; temperature, maximum yesterday, 72; minimum, 54; wind, 10 miles W.; weather, cloudy.

**Prince Rupert**—Barometer, 29.96; temperature, maximum yesterday, 55; minimum, 46; wind, calm; weather, fair.

#### Business This Year Setting New Records; But Surplus Feared

New York, July 10.—Business at the close of the first half of the year reveals in its composite balance sheet a strength and liquidity of position surpassing anything ever achieved in the past, states the American Bankers Journal in its current issue.

But along with its optimistic utterances, the journal asserts that some industrial are speeding along too fast and soon will be brought face to face with a surplus of products, resulting in price-cutting and elimination of profit margins, unless production schedules are adjusted to conform closely to orders and shipment.

**You Are Sure  
of Being  
NOURISHED  
If You Take  
BOVRIL**

**Business Now  
Steadier Than  
A Month Ago**

**Wheat Prices Stronger, Build-  
ing Operations Favorable**

Toronto, July 10.—"There is less un-  
settledness in business than was the  
case a month ago, mainly as the result  
of a stronger wheat market, improve-  
ment in the condition of most of the  
new crops in the eastern provinces,  
the continued favorable outlook for  
metal mining and the opening of the  
tourist season, which promises to be  
more profitable to Canada than ever  
before. Other strengthening factors  
are the prospect of building operations  
during the next few months on a scale  
at least equal to that in the summer  
and early autumn of 1928, and the  
excellent production record of the  
newsprint industry since a rational  
p.a. was adopted a few months ago,"  
states the monthly letter of the Cana-  
dian Bank of Commerce.

**WHEAT PRICES**

"While there is no great cause for  
satisfaction when the average price of  
wheat is still at a level close to the  
cost of production, the developments  
affecting the market for this grain  
have been more favorable in Canada  
than seemed probable according to the  
predictions last month of some authori-  
ties. The present price level is now  
in line with the world supply and de-  
mand. It is, of course, subject to  
change, either upward or downward,  
according to the progress of the new  
world crop; if, as is now indicated,  
the crops in some important produc-  
ing countries should be smaller than  
in 1928, the price would probably ad-  
vance. It is doubtful whether the  
new Canadian crop will reach the pro-  
portions of last year's, but in all like-  
lihood it will be of better quality, and  
as was observed in The Monthly Com-  
mercial Letter for May, the harvest  
most to be desired in Canada is one  
of high quality and fairly large size  
rather than a bumper crop of low  
grade.

**AUTO INDUSTRY**

"The automobile industry, which  
operated for some time at a record  
level, has found it necessary  
to curtail production sooner than was  
expected owing to a congested used  
car market and to a falling off in  
western trade, and the summer out-  
put may not be of normal volume. The  
auto industries have felt the effect  
of this early seasonal slackening.  
Many branches of manufacture, how-  
ever, are still busy, some in filling  
orders for summer and fall trade, and  
others in making up a shortage of cer-  
tain materials, the demand for which  
has exceeded the supply.

**LUMBER INDUSTRY**

"The major operators in the British  
Columbia lumber industry have found  
it necessary to consider the question  
of reducing their output, for while  
they have continued to work on a  
large production schedule in order to  
complete shipments arranged for dur-  
ing the winter and spring, some of  
the foreign markets have weakened to  
such an extent that little new busi-  
ness has been booked. The agree-  
ment among the eastern newsprint  
producers has brought about a greater  
improvement in the industry than  
was expected in so short a time; re-  
sulting production has reached a  
monthly average of about eighty-five  
per cent of rated capacity, which  
would be regarded as satisfactory for  
any industry. Some seasonal slow-  
up may now occur, but it seems cer-  
tain that the producers are in a com-  
paratively strong position.

**SALMON CANNING**

"The salmon canning season opens  
on the Pacific Coast with bright pros-  
pects. The carry-over from last year  
is sufficient only to supply the market  
until the new pack is available. The  
canners look for a large pack of high-  
grade fish, to be sold at about the  
same prices as prevailed for the 1928  
pack, and if their expectations are  
realized the season's operations should  
be profitable.

**Ganges**

Mr. and Mrs. Leonard Tolson, of Vic-  
toria, are spending the summer hol-  
idays at their residence on Ganges  
Hill.

The house and land overlooking  
Vesuvius Bay, belonging to F. T. Bul-  
livant, of Ilkley, Yorks, England, has  
been purchased by J. N. Smith, of  
Vancouver, who will take possession  
shortly.

Leonard Simpson returned on Satur-  
day from Vancouver.

Mrs. T. Ashton, who has resided on  
Salt Spring for the past nine years,  
left on Tuesday for North Vancouver,  
where she will make her home.

Mrs. Bretnall of Victoria is visiting  
friends on Salt Spring for a few days.  
Mrs. D. Johnson, of Victoria, and  
her son, are guests of her parents, Mr.  
and Mrs. John Rogers, of Cranberry  
Mountain.

The Misses Lulu, Dora and Peggy  
Rowan, of Vancouver, are spending  
the summer holidays with their par-  
ents, Major and Mrs. A. Rowan,  
Ganges.

Stanley Smith recently purchased  
property at Vesuvius Bay, and will  
start building immediately.

Mr. and Mrs. R. A. Smith and fam-  
ily, who recently arrived from  
Marguerite, B.C., are occupying prop-  
erty on Rainbow Road, Ganges, belong-  
ing to Mrs. Cunningham.

The property of the late T. Le Pace,  
consisting of ninety-one acres at the  
north end of Salt Spring Island, near  
St. Mary's Lake, has been purchased  
by Mr. LeVigne from Ireland.

J. H. Kingdom, who has been a pa-  
tient in Lady Minto Hospital for several  
weeks, has returned to his home at  
St. Mary's Lake.

**REPORT SHOWS  
\$218 DEFICIT**

**July 1 Celebration Committee  
Considers Programme Suc-  
cessful Despite Loss**

Although the financial report of  
the July 1 celebration showed a  
deficit of \$218, members of the  
committee considered the holi-  
day festivities an outstanding suc-  
cess when hearing reports sub-  
mitted at the meeting in the Sons  
of Canada Hall last night.

Expenditures for the two-day cere-  
mony totaled \$698.04, while proceeds  
from the different events staged  
amounted to \$479.91.

Of the latter sum, \$86.40 was re-  
ceived from the Arena musical fes-  
tival and \$393.51 from the sports pro-  
gramme in the Royal Athletic Park  
on Monday.

Expenses for the musical festival

totalled \$225, while those for the ath-  
letic programme were \$367. Advertis-  
ing of the community singing on the  
steps of the Parliament Buildings cost  
\$70.81. For this part of the pro-  
gramme there were no returns.

**EXPRESS THANKS**

Members of the committee expressed  
themselves as being particularly grate-  
ful to Rod McLeod, president of the  
organization; A. E. Scourrah; Len  
Campbell, secretary of the committee;  
Mrs. George Lillie and Mrs. Campbell,  
who were responsible for the decora-  
tions in the Arena; the Victoria Musi-  
cal Festival Association, of which  
George Watson is president and Fred  
Waddington conductor; to Dean  
Quainton, who spoke so ably on the  
afternoon of Sunday, June 30, when  
Reginald Hayward, M.P., occupied the  
chair. They also expressed their  
thanks to Dr. Coleman, of the Uni-  
versity of British Columbia, who was  
the speaker on Monday evening, when  
Hon. S. F. Tolmie took the chair and  
R. R. Webb led the community singing.

At this time of the year rhubarb  
should not be forced. Ask it to go  
quietly away instead. After all, it costs  
nothing to be polite. If you were a  
stick of rhubarb and not feeling very  
well you wouldn't like to be forced.

**HE'S CIRCLING GLOBE IN THIS TINY PLANE**

Here's Baron Frederick von Loenic Walthausen, just arrived in the United States, and the tiny aeroplane in which he is flying around the world. The baron's plane measures twenty-four feet long, over all, and is six feet high, with a wing spread of thirty-six feet. It has a twin-cylindered, twenty-horsepower, motor capable of getting fifty miles on a gallon of gasoline. The young German flier is now on his way across the continent to New York, having arrived in San Francisco by steamer from Japan.

**ENGLISH BOYS  
TO FARM HERE**

**Fifty Coming to British Co-  
lumbia Under Empire Settle-  
ment Scheme**

Fifty boys from England, between  
the ages of fourteen and nineteen years,  
will be brought to British Columbia  
and placed on farms in the Province  
and assisted later to own their own  
farms under arrangements made by  
Hon. William Atkinson, Minister of  
Agriculture, with the Empire Settle-  
ment Scheme and the Dominion Gov-  
ernment.

The lads become farmers on their  
own lands when they reach the age  
of twenty-one years, provided they  
have saved \$500 which they are pre-  
pared to invest in purchasing land. At  
that time \$1,250 is put up by the Im-  
perial Government and a like sum by  
the Dominion Government. The Pro-  
vincial Government may contribute  
\$250 of the amount advanced by the

**RHEUMATISM?  
Sciatica? Neuralgia?**

You can have relief. Mrs. T. K.  
Sheehan of Windsor, Ont., was helpless  
with Inflammatory Rheumatism. She  
couldn't even move her eyes, and spent  
nearly \$1,000 for treatments. She  
writes: "Three boxes of T-R-C's made  
me completely well". T-R-C's are equal-  
ly good for Sciatica, Neuralgia, Neuritis  
and Lumbago. Quick. Safe. No harmful  
drugs. 50c & \$1 at your druggist's. 117

**T-R-C's** TEMPLETON'S  
RHEUMATIC  
CAPSULES

Dominion Government and be free  
from further responsibility, or may co-  
operate with the Dominion in seeing  
that the farm is properly developed.  
Ontario will take 1,200 boys under the  
scheme, Manitoba 101 and Saskatche-  
wan and Nova Scotia 65 each.

"Who is that gentleman?"  
"The Secretary of War. A very im-  
portant man."  
"But what does he do when there  
is no war?"

**PIANO FACTORY SURPLUS SALE**

**Kent Piano Co.**  
Has Started a Piano Buying  
Stampede Throughout  
the Province

The greatest outpouring of Musical Merchandise buyers  
that this Province has ever witnessed has responded to  
this greatest of all Piano Bargain Carnivals—only a house  
of the financial stability of Kent Piano Company could  
attempt an event of this kind—the cash outlay to secure  
this stock is in itself a great risk—but our confidence has  
been justified, as yours will be if you partake of the  
savings that this great event makes possible.

THERE IS A PIANO HERE FOR EVERY PURPOSE AT  
A PRICE AND ON TERMS THAT WILL FIT  
EVERY INCOME

**No Interest**

**Last Call Thursday and Friday Tell the Story**

**PRACTICE PIANO \$67**

You have long  
deferred securing  
a Piano for the  
children to prac-  
tice on. This,  
then, is your op-  
portunity. Truly,  
this is not a  
new instrument  
but you just  
come here and  
see it—hear it  
—then decide.

Convenient Terms Arranged

**Mason Hamlin Piano**  
**\$227**

**\$950** Mason Hamlin **\$227**  
Used as a store demonstrator.  
New piano guarantee.

### LOCAL BOY WED- IN NANAIMO

Mr. Noel Collison and Miss Lorna Coburn Married in Nanaimo Last Evening

St. Andrew's United Church, Nanaimo, was the scene last evening of the wedding of Lorna Mae, daughter of Mr. and Mrs. John W. Coburn, Nanaimo, and Mr. Ralph Noel Collison of Victoria, son of Mr. and Mrs. J. J. Collison, the Uplands, Victoria. Rev. F. W. Anderson officiated in the presence of a large number of guests, many of whom were from Victoria.

Given in marriage by her father, the bride wore a handsome gown of white lace and georgette, fashioned with long bodice, and bouffant skirt of ruffles of tulle and lace, over which was draped a silk net veil, held in place on the head by a coronet of orange blossoms. Her bouquet was a shower of bridal roses.

She was attended by Miss Macford Kerr, who wore a frock of orchid georgette and mohair hat to match and carried a shower bouquet of pink and mauve sweet peas.

The groom was supported by his brother, Mr. Bert Collison and the ushers were Mr. Tom Sturgess of Victoria and Dr. Wallace Coburn of Nanaimo, brother of the bride.

Following the ceremony at the church, a reception was held at the home of the bride's parents, Stewart Avenue, where a large number of guests assembled to extend their good wishes and congratulations.

Mr. and Mrs. Collison left later for the mainland and on their return to Vancouver Island will make their home on St. Patrick Street, Victoria.

Among the many out-of-town guests at the wedding were the groom's parents, Mr. and Mrs. J. J. Collison, Mr. and Mrs. Clifford Collison, Mr. and Mrs. Oliver Hamilton Bell, Mr. E. Savannah, Miss Betty Savannah, Miss Oliver, Miss Carthews, Miss Grace Morrie and Miss Goodale, all of Victoria; Mrs. and Miss Edna Pettipiece of Vancouver and Mrs. F. Goodale of Winnipeg.

The groom was supported by his brother, Mr. Bert Collison and the ushers were Mr. Tom Sturgess of Victoria and Dr. Wallace Coburn of Nanaimo, brother of the bride.

### NURSE CONGRESS RANKS GROW

Representatives of Five New Countries Installed at International Meeting

Montreal, July 10.—National nurses' associations of the five countries were received into the membership of the International Congress of Nurses with pomp and pageantry last night in the session of the International Congress.

The five new members are from Brazil, Greece, Yugoslavia, the Philippines and Sweden. Another outstanding feature of the meeting was the reading of a paper on the education foundation for the future of nursing by M. A. Nutting, M.A., professor of nursing education, Teachers College, New York. Professor Nutting expressed the hope that proper safeguard would soon be erected to protect nursing schools from the complete subjection to hospitals into which they have fallen. Complete separation of nursing schools from hospitals was advocated.

With some 6,000 nurses in costume ranging from the demure simplicity of religious orders to the brilliance of Oriental national dress, and with flags of almost every country of the globe draping boxes, platforms and stands, the forum where the session was held, provided a very appropriate setting for a colorful international ceremony.

### GARDEN FETE HELPS SCOUT HALL FUND

A meeting of St. Paul's troop and pack parent committees was held yesterday evening when the report on the garden party was received. The garden party was a great success and a considerable amount of money realized towards payment of the new Scout Hall. Plans are now well under way towards holding another fete and dance August 5, to which the public are cordially invited. The meeting was held in the new hall, and conspicuous amongst the decorations of same was the banner presented to the troop at the garden party of the Scout's Auxiliary held at Government House, June 22. This banner was donated by the late Hon. Mr. Michol for great effort, and was competed for by all scout troops in Victoria district.

### ON HONEYMOON IN VICTORIA

MR. AND MRS. MAURICE CLEARY

who are guests at the Empress Hotel. Mrs. Cleary is the famous screen star, May McAvoy. They came north from Los Angeles to spend a week here.

### Personal Items

His Honor the Lieutenant-Governor and Miss Mackenzie returned to Victoria this afternoon from Vancouver, where they spent a few days in the Stewart-MacLean wedding that took place in Vancouver yesterday afternoon.

Captain and Mrs. C. D. Neroutos are spending a few days in Vancouver.

Mrs. Weiner of Sproat Lake has been paying a short visit in Victoria.

Hon. S. L. Howe and Mrs. Howe will leave to-night on the Princess Norah for the West Coast trip.

Mr. Ira Dilworth and Mr. W. A. Jameson, have returned to Victoria from a trip up the West Coast.

Mr. and Mrs. Donald McLeod, of Hill-Tout, of Vancouver are spending their honeymoon in Victoria.

Mr. and Mrs. John Lund of Vancouver are spending their honeymoon on Vancouver Island.

Mr. and Mrs. M. J. Kavanagh and Miss Harriet Kavanagh of Beverly Hills, Cal., are guests at the Empress.

Mr. and Mrs. W. H. Dodge are registered at the Empress from Beverly Hills, Cal.

Ross C. Miller, managing editor of The Bakersfield Californian, is visiting Victoria for a few days.

Dr. and Mrs. G. C. Johnson of Berkeley, Cal., are guests at the Empress Hotel to-day.

Mrs. Harold Spiers of Vancouver is spending a few days in Victoria and is a guest at the Metropolis Hotel.

Mrs. Frank Barker of Calgary and her daughter, Miss Mary Barker, are staying at the Guest House, Oak Bay.

Miss Margaret Clay entertained a few friends at luncheon yesterday in honor of Mrs. Alistair Fraser and Mrs. James Ross of Montreal.

Mr. Appleyard of Fernie, accompanied by his daughter, Mrs. A. B. Sanborne of Fernie, is a visitor in Victoria and is a guest at the Empress Hotel.

Mrs. Ellison Cook's special tour party from Atlanta, Ga., arrived in the city yesterday and registered at the Empress Hotel.

Mr. A. L. Tallafero of Rock Springs, Wyo., and Mr. John H. Potts of Seattle, were registered at the Empress Hotel yesterday.

Mrs. W. H. Hurd and her children, Margaret and Billy, are here from Winnipeg, and are staying at the Oak Bay Hotel.

Mr. and Mrs. J. E. Shenks arrived on Monday, having motored from Erie, Pa. They are visiting Mrs. Shenks' niece, Mrs. G. S. Johns, 615 Moss Street.

Dr. and Mrs. W. L. Harpel, of San Francisco, and formerly residents of Victoria, are spending several weeks holidaying in the city, and are registered at the Empress Hotel.

Mrs. C. H. French, of Winnipeg, and the Misses Leta, Clara and Olive French are spending the summer months at Cordova Bay, and are occupying Mr. J. F. Brown's residence.

Mrs. Herbert W. Davey (formerly Miss Doris E. Allan) will receive for the first time since her marriage to-morrow afternoon from 3 to 6 o'clock at her home, 346 Vancouver Street.

Capt. and Mrs. P. A. McCallum of Prince George are holidaying in Victoria and are staying with Mrs. McCallum's parents, Lieut.-Col. and Mrs. Gordon Baker, Patio Court, Oak Bay.

Mrs. C. W. Rhodes entertained at a luncheon party yesterday at her home on Terrace Avenue in honor of Miss Wilson and Miss Shunk of California, who are visiting in Victoria as the guests of Mrs. C. J. V. Spratt, and of Mrs. J. Totten of New York, who is a guest at the Empress Hotel.

### COLORFUL SCENE AT WEDDING OF VANCOUVER GIRL

Miss Margaret M. Stewart and Lt.-Col. MacLean Married

Vancouver, July 10.—All the colorful background of a Scottish wedding, with its skirling pipes, kilts and bountiful hospitality formed the setting for the marriage of Margaret Mary, only daughter of Major-General Stewart, C.B., C.M.G., and Mrs. Stewart, to Lieut.-Col. A. T. (Jock) MacLean, M.C., son of the late Mr. and Mrs. John C. MacLean, Springfield, Pictou County, N.S., which took place yesterday afternoon at the home of the bride's parents.

Although the marriage was performed quietly by Rev. Father C. J. McNeil in the presence of immediate relatives, the large reception at 3 o'clock which followed the more intimate gathering of the friends, was unprecedented in its colorful character.

The bridal party received in the drawing room under an arch of roses and gardenias before which the marriage had been solemnized, the guests passing on into the garden to await the bridal procession.

### Uninvited Woman At Banquet Attended By Prince Of Wales

London, July 10.—It has been revealed that a woman gate crasher was presented to the Prince of Wales Monday night at the banquet given at the Mansion House in honor of Sir Abe and Lady Bailey.

A pretty young woman of about twenty-eight years arrived at the Mansion House and had herself announced under a fictitious English title. She was introduced to the Prince, who shook hands with her, and also to the guests of honor of the evening.

All might have gone well but the fact that only four women had been officially invited proved her undoing, as well as her unfortunate attempt to take the seat at the dinner table which had been reserved for Rt. Hon. J. H. Thomas, Lord Privy Seal and Minister in Charge of Employment. She was requested to leave.

The identity of the uninvited guest, who, it is explained, spoke with a foreign accent, is unknown.

Misses Evelyn and Lillian Curtis, who wore dainty frocks of primrose organdie and carried colonial bouquets. The groom was supported by his cousin, Mr. Kenneth Jennings, Mr. and Mrs. Knapp left on the afternoon boat for Vancouver, and on their return to Victoria will make their home on Simcoe Street.

Mrs. A. M. G. Boston of Purley, Surrey, England, arrived in Victoria recently to spend the summer here with her cousin, Mrs. B. H. John of 948 Queen's Avenue. Miss E. A. John of Portland, Ore., is also here on a visit of several months.

Canon Tremayne and Miss Tremayne of Mimico, Toronto, have left for their home in the east after spending the last two weeks at William Head as the guests of Canon Tremayne's brother and sister-in-law, Dr. and Mrs. E. Tremayne.

Miss Ethel Rhodes of Seattle, who has been spending the last month in Victoria as the guest of her mother, Mrs. C. W. Rhodes, Terrace Avenue, and her sister, Mrs. F. Storry, St. Patrick Street, will return to-morrow to her home in Washington.

Mr. A. D. M. Fairbro, who has been private secretary to His Honor, the Lieutenant-Governor since His Honor took over his office, will leave on Saturday for New York, to make his future home. Mrs. Fairbro will continue to live in Victoria for a time.

Miss Dorothy Alexander, youngest daughter of the late Mr. Robt. L. Alexander and Mrs. Alexander, of Victoria, accompanied by her sister, Mrs. Adam, was quietly married in Banff on July 8 to Mr. Leslie P. Roach, of Three Hills, Alta., in St. George's Church by the Rev. Mr. Montgomery.

A delightful shower was given at the home of Miss Doreen Cooper, 1515 Fort Street, in honor of her cousin, Miss Eva Hamilton, whose marriage took place to-day. The rooms were tastefully decorated with summer flowers. The miscellaneous gifts were concealed in a decorated hat box. Dainty refreshments were served by the hostess. The invited guests included: Miss Eva Hamilton, Mrs. H. C. Hamilton, Miss Maudie, Mrs. G. P. Libby, Miss N. Libby, Miss Mildred Stephens, Miss Margaret Matthews, Miss Grace Keefe, Miss Mary Scott, and Miss Doreen Cooper.

Mrs. Prescott Cookingham of Portland, Oregon, has rented Mrs. McGregor Macintosh's home at Patio Court, Oak Bay, for two months, and will arrive in Victoria at the end of the week.

Dr. and Mrs. David Donald and Miss Jean Donald, Langford, will leave for England on Saturday afternoon. Miss Donald will be married in England during August and Dr. and Mrs. Donald will return to Victoria in September.

Mrs. Gordon Kenning accompanied by her mother, Mrs. Moore, Pemberton Road, her two sons, Masters Angus and Ian Kenning, and her brother, Mr. Kenneth Moore, is spending the remainder of the summer at Patricia Bay.

A quiet wedding took place at Christ Church Cathedral at noon to-day when Very Reverend C. S. Quainton, Dean of Columbia, united in marriage Edith, daughter of Mr. and Mrs. G. A. Palmer, 1158 Johnson Street, and Mr. Reginald Knapp, son of Mr. and Mrs. A. Knapp, 1221 Whitaker Street. Given in marriage by Mr. T. Mayo, the bride wore a frock of blue georgette and mohair hat to correspond and carried a shower bouquet of bridal roses. She was attended by two little flower girls, the

## Canadian National Railways Telegraph System Now Reaches From Coast to Coast

July 1, 1929, marked another step in the advancement of the Canadian National Railways Telegraph Service. On that date the land line Telegraph System of the Western Union Telegraph Company of the Western Union Telegraph Company in New Brunswick, Nova Scotia and Prince Edward Island became the property of the Canadian National Railways.

This adds 6,670 miles of wire and 188 offices to the Canadian National Railways Telegraph System. The Canadian National Railways now have 2,117 Telegraph offices, and 159,738 miles of telegraph wire in Canada, enough to cross the Continent forty-two times.

It is fitting that the acquisition of this new service by Canada's greatest public owned Company took place on Confederation Day.

## NURSES DISCUSS MANY SUBJECTS

Montreal, July 10.—The nurse with the feeling of responsibility can understand easily the duties of a citizen because in her private actions she already is a contributing member of the community. Sister Bertha Wellin, member of the Swedish Parliament and president of the Swedish Nurses' Association, told the nurses of more than forty countries at a meeting of the Congress of the International Council of Nurses.

"We must leave nurse organizations out of politics and concern ourselves only as individual nurses, and then not as active politicians, but as interested citizens," she said. "It is an indisputable fact that the sickroom and the hospital ward should not be places of political propaganda. But nurses can contribute by awakening public spirit and a feeling of responsibility. Thousands of opportunities should arise when we nurses, without breaking the laws of tact, good judgment, and political neutrality can use our powers toward creating good citizens."

Miss Annie W. Goodrich, Dean of School of Nursing, Yale University, who preceded Miss Wellin, said that an

increasing number of colleges and universities are recognizing the need for placing nursing education on a basis with the education of other professional groups such as physicians, lawyers, dentists. More than thirty colleges and universities now have schools of nursing.

Miss S. C. Hearder, matron of Bethlehem Royal Hospital, London, led a round table discussion on the need of education in mental nursing in the general curriculum. Utilization and organization of teaching services in public health activities not under school control was considered at a round table led by Miss Cecile Mecheynick, director of the Visiting Nurse Association of Belgium; Miss Nellie X. Hawkins, Dean of School of Nursing, Western Reserve University, directed the discussion on the subject of economic aspects of nursing education and services.

Other discussion subjects to-day were those of the public health nurse and social work, led by Miss Alma C. Haupt, associate director, Commonwealth fund, New York; text and reference books for nurses, Miss Zefira Majdnakova, Bulgaria; the place of preventive medicine in the curriculum of the school of nursing, led by Miss J. Romanowska, president of the National Council of Polish Professional Nurses, and staff education, a discussion led by Kuo Jung Hsun, P.U.M.C. Hospital Peking, China.

**YOUR BABY and MINE**  
by MARY MEYER ELDRID

Mrs. Eldrid will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

Excellent Procedure Offered by Reader

Mrs. T. M. C. A. writes:

"I have a girl of four and have found some good ideas for her. One I would like to pass on to your readers for other mothers might find it helpful. My girl easily broke herself to keep dry in the daytime, but this was difficult at night. I tried limiting her liquids in the late afternoon, tried getting her up often at night, but nothing helped.

"I finally bought a box of gold stars and a calendar. I told her I would put a gold star on every night she kept dry. At first she only got one or two a week, but by encouraging her admiration of the stars she soon increased them. I told her at the end of the month she would get a merit prize according to the number of stars she had. Soon she became interested in getting more stars and she would call us at night for attention.

"As she called us when it was necessary this was more effective than when she was awakened by us. For the prizes I gave her a few pennies for her bank, a bag of favorite fruit, a small toy, a pin, and for a full month of stars she got a big prize, a box of candy from her daddy. I mounted each month's calendar sheet on green mounting paper and hung it in her room. It took a few months and then she was cured."

**ANSWER**

The use of stars and a calendar as an incentive to dry beds is an excellent procedure. It has the advantage of making the child's progress and improvement visible to her. Children forget easily from day to day—but there on the wall hangs her record of achievement and it is a constant stimulus to improve it and have more and more stars.

The second effective stimulus is the feeling the child gets that having a dry bed isn't at all an impossibility. You put your finger on a very important item in this training that what the child does with purpose and by her own volition is more effective than when she is made to do it. When a child is awakened at night one may manage to keep her bed dry, but she still depends upon you to awaken her. She doesn't take over the responsibility herself. It is exactly the same situation as when in a strange town we let someone familiar with it lead us around. We really never learn anything about how to get around until we do it alone. This may be a far-fetched analogy, but it is a fact that when a child makes up his mind that he can help himself and that no one else is going to shoulder the burden, then he does wake up and take care of himself. Cures don't come over night, and if the child feels discouraged at lapses, he ceases to make the necessary effort, but if he can see a few more stars on the calendar each week he knows that he is better; that each week makes it easier, and this suggestion is helpful in the extreme.

The use of prizes has a dubious merit. The prizes should be what you suggested in another portion of your letter, the delight in a clean, dry bed. The prospect of things one may do when one is habituated to dryness, visits to be taken which might otherwise not be enjoyed. Tangible rewards may make the child work for the reward rather than the effort at control. We must use rewards with great care.

**Rev. Pascoe Goard To Give Lecture**

Rev. Pascoe Goard of London, England, will deliver an address on "The Unchanging Purpose of the Ages" at the Chamber of Commerce this evening. Herbert Garrison, F.R.G.S., who has delivered several lectures in the city since his arrival here a few days ago, will be in attendance at to-night's meeting.

## NANCY PAGE

THE PAGES PLAN TO BUILD THEIR OWN HOME  
By Florence La Gank

Nancy and Peter had planned to spend at least six weeks in the south but their trip was cut rudely short when they received a telegram from home. This telegram brought the astounding news that their home which they had been renting had been sold out from under them. At first they were stunned. They had put so much thought into that little house. Every bit of furniture, every hanging, every picture and etching had a meaning and a place in the home. "Why, Peter, how can they? They told us we could buy the house whenever we were ready. Why, Peter, what will we do?" "Do we build our own home, I didn't think I could swing it just yet, but by George I will. We won't let another landlord have a chance to do such a blundering thing to us." "Build? Build? Can we really truly, can we? Let's go right home and start."

For the last two years Nancy had been clipping every good idea she had seen, every decorative bit which appealed to her and had pasted them in her dream home scrapbook. Now she could scarcely wait to get home and put her hands on it.

To divert her, Peter told about the kind of location they had chosen. "We want a home in a neighborhood where there are yards and gardens. Our son needs those things," Nancy smiled, the baby was not even a year old and already Peter saw him grubbing in a garden. Bless his heart, he would too, if he took after his dad. "Then we want to be near schools because we are going to have Joan with us for some time. We want congenial neighbors and a rather new part of town. I've been told that the average time for any given community to stay at its best is seven years. We'll get in at the start, but not so near the start that the restrictions and regulations aren't drawn up. Cosh, it means work finding that place. Why doesn't this train go faster?"

## Garden City

Mr. and Mrs. James, Jasmine Avenue, have returned from a vacation in September.

Miss Marjorie Munro, who has been teaching school near Underwood, returned Saturday to spend the vacation with her parents, Mr. and Mrs. Munro, Snowdrop Avenue.

The monthly meeting of the Women's Association, Garden City United Church, was held at the home of Mrs. J. Hobden, Gladstone Avenue, on Tuesday afternoon. Devotional exercises were led by Mrs. Aubel. Reports of committees were read, and \$10 paid to the piano and church fund. Musical numbers were contributed by Miss Lila Demmstedt and Mrs. Hobden. Tea was served by the hostess.

Mrs. W. A. Brown, with her daughters, of Rowland Avenue, have returned from a trip up the Island.

Charles Goodyear made his accidental discovery of vulcanization of rubber in 1829.

## FLOWER SHOW AT NORTH SAANICH

Lieut.-Governor, Premier and Miss Mackenzie to Officiate at Ceremony Monday

Many Exhibits of High Standard to Be on View in Saanichton Agricultural Hall

A gay panorama of brilliantly-colored summer flowers will be presented to the public when His Honor, the Lieutenant-Governor, assisted by Miss Helen Mackenzie and Premier Tolmie, opens the second annual flower show of the North Saanich Horticultural Society at 2 o'clock Monday afternoon.

In order to bring the show before the eyes of Victorians, the society has secured the use of windows in the stores of the Hudson's Bay Company and David Spencer's Limited, to display exhibits of cut flowers on Friday, Saturday and Sunday.

**MOUNTED WILD FLOWERS**

Among the special features which are expected to draw particular attention from visitors is V. E. L. Goddard's collection of mounted wild flowers, which won the Macoun Trophy at the Vancouver Island Spring Flower Show. Sweet peas will also occupy a prominent place in many displays, while roses of many varieties will be shown on the different stalls.

A special section of the prize list has been devoted to displays of gladioli in vases, baskets and other tasteful arrangements.

**MANY VARIETIES**

Bowls of general flowers including anthuriums, dahlias, pansies, violas, nasturtiums, phlox, lilies and scores of other varieties which are to be found in summer gardens will no doubt add greatly to the color of the show.

Bouquets, sprays, button-holes and decorated tables will also be featured in the exhibition.

Besides blooms, there will be a liberal display of fruits, including cherries, currants, raspberries and lemons in a separate section of the hall.

A silver vase, donated by L. E. Taylor, president of the association, will be up for competition among entrants in the exhibition. This trophy will be awarded to the competitor gaining the highest aggregate in all contests.

## EXHIBITION OF WOMEN'S WORK

Esquimalt W.I. Make Plans For Exhibition on August 7; Annual Picnic August 17

At a well-attended meeting of the Esquimalt Women's Institute, held last evening in the parish hall, final arrangements were made for the exhibition of women's work and flower show to be held on August 7, and catalogues and entry forms were issued to the members of the various departments.

Mrs. Wise, general convenor, expressed the hope that the public would respond with a good entry of exhibits and make the affair a great success.

Mrs. Cave reported on the garden party, held recently at the residence of Mrs. Booth. Mrs. W. Atkinson, wife of the Minister of Agriculture, performed the opening ceremony and spoke in high terms of the good work accomplished by the organization. She was presented with a beautiful bouquet of roses and carnations by little Clare.

In the competitions Mrs. Williamson won the cake, Mrs. Stewart the box of candy, Mrs. J. Watts the table scarf and Mrs. Saddle secured the tomboia prize, a glass bowl.

Mrs. Cave also announced that another successful card party had been held on Thursday last.

Mrs. Appleby reported a meeting of the Child Hygiene Council on June 20, when an interesting talk on the work with special reference to Brownies, had been given by Mrs. R. P. Matheson.

The annual picnic of the association will be held on August 17 at Cordova Bay.

Hostesses for the social hour were Mrs. F. Locke, Mrs. Appleby and Mrs. Grimes.

## MOTHERS AND THEIR CHILDREN

## DAUGHTER'S JELLY

One Mother says: My little girl has a small set of aluminum ware as well as a little china set and she is very proud of them both. One day when I was making jelly, I had a little basin left over which was not enough to fill a regular size glass so I was wondering what to do with it. Jane spoke up and said, "Put it in my dish, mother."

So I did and it made the finest sort of little jelly molds which she uses for her very own, either at the table or at her afternoon "teas." We also use these little molds to garnish salads and meats and they never fail to delight all the members of the family.

Copy, 1929, Associated Editors Inc.

**That's a Calamity**

Smith—Have you ever been in a railway accident?

Jones—Yes; once I was in a train and we went through a tunnel and I kissed the father instead of the daughter.

## CENTENNIAL SCENE OF WEDDING TO-DAY

Miss Eva Kathleen Hambleton and Mr. Julian E. Fry Wed By Rev. J. P. Westman

The Centennial United Church was the scene at 2.15 o'clock this afternoon of the wedding of Eva Kathleen, daughter of Mr. and Mrs. H. G. Hambleton, Blackwood Street, and Mr. Julian Edward Fry, son of Mr. and Mrs. Roger Fry, of London, England. Rev. J. P. Westman of Vancouver, who married the bride's parents twenty-seven years ago in the same church, came over from the mainland to officiate at the marriage service.

Owing to the unavoidable absence of her father, the bride was given in marriage by her uncle, Mr. Charles Cooper, and wore a frock of pale blue crepe de Chine, and on her head a coronet of silver leaves and orange blossoms. Her bouquet was composed of bridal roses and white carnations.

Her only attendant was her cousin, Miss Doris Cooper, who wore a dress of pale pink crepe de Chine and a nosegay of silver leaves on her head. She carried an arm bouquet of delphiniums.

The groom was supported by Mr. E. G. West of Cobble Hill. Mrs. Paul Green presided at the organ.

Following the ceremony a reception was held at the home of the bride's parents, where many guests assembled to offer their good wishes and congratulations.

Mr. and Mrs. Fry left later for Vancouver, where they will spend a few days before leaving for Lac la Pêche, the Cariboo district, to make their future home.

Among the out-of-town guests at the wedding were Mrs. H. Hobbs, Miss Hobbs and Master Arthur Hobbs of Ganges Harbor and Mr. Nelson Frack of Sidney.

The bride is a graduate of the 1929 class of the training school for nurses, Provincial Royal Jubilee Hospital.

## WILL LECTURE TO CHILDREN

Miss Mabel Rich to Give Special Talk to Metropolitan School Pupils To-morrow

Miss Mabel Rich of Toronto, who is in the city carrying on a special course in music appreciation at the Summer School for Teachers, will deliver a lecture at the Metropolitan Church Vacation School to-morrow morning.

The lecture will take the form of a talk and demonstration to the children, and should prove of interest both to young people and adults interested in children's work. The lecture will commence at 10 o'clock.

The Metropolitan Church Vacation School, which opened last Monday, carries a series of courses for boys and girls from the age of six to twelve years. The term will be of three weeks duration, classes commencing at 9.15 o'clock each morning and closing one and one-half hours later. The children are instructed in singing, recitation, devotional exercises and handicraft, and have besides an organized play period.

Miss E. Jones is superintendent of the primary department and Mrs. M. C. Wilkinson takes charge of the juniors. Parents are urged to take advantage of this opportunity to have their children taught under careful supervision.

## Salads Frozen In Morning Save Night Rush

Whenever it's possible, the fore-handed housekeeper prepares her salad in the cool of the morning and keeps it in the icebox until wanted.

A frozen salad can be left almost indefinitely in the drawer of an electric refrigerator or can be kept in ice and salt for five or six hours.

The lettuce can be washed and kept in an air-tight container until wanted. If these things are done in the morning the actual work at dinner time is merely a matter of serving.

Jellied salads usually require at least two hours to become firm and may be kept on ice for twenty-four hours without detriment to the salad.

One precaution should be kept in mind. Extra gelatine is necessary during hot weather and when fruit is included among the ingredients if the jellied salad is to be appetizingly firm.

The following salad can be varied in several ways and feature the surprise element which is always popular.

Two tablespoons granulated gelatine, 1/2 cup cold water, 1 cup boiling water, 1/2 cup lemon juice, 1-3 cup sugar, 1/2 teaspoon salt, 1 package cream cheese, 4 tablespoons finely chopped nuts, 4 tablespoons minced celery, 4 tablespoons whipping cream, 2 peaches, lettuce, French dressing.

Soften gelatine in cold water. Add boiling water and when dissolved add sugar, lemon juice and salt. Pour into individual molds which have been dipped in cold water. Remove from molds and cut a slice from top of each. Remove centres and fill with cream cheese moistened with cream and combined with nuts and celery. Place each mold in a wreath of sliced peaches arranged on lettuce. Replace peaches removed from top very carefully and serve with French dressing.

A thick slice of apple or pineapple could be used in place of sliced peaches. Fine large tomatoes cut in thick slices also might be used and would supply an attractive touch of color.

## Citrus Fruits Washes

Reduce Decay Losses

Various disinfectant washes have been tested by the bureau of plant industry with a view to developing practical methods for eliminating an estimated loss of \$100,000, or more, annually in the decay of citrus fruits while being shipped from California, says Popular Mechanics Magazine. The substances tried include borax, sodium bicarbonate and some of the strong alkalis. Treatment with sodium bicarbonate is reported to have produced excellent results.

## School Teaches Boat Building to Boys

Under the direction of a master boatbuilder, boys in the manual-training department of a Miami high school are taught how to construct seagoing

**Whipped cream desserts at plain milk cost**  
by Mary Blake

Isn't that interesting news! Just think of all the delicious fluffy bavorsians and charlottes and creams that you can have without a bit of expensive whipping cream!

This is what you do. Buy a few cans of Carnation Milk. Take off the labels, put the cans in a pan of water and boil the water five minutes. Let the cans cool, then put them in the refrigerator to get thoroughly chilled. Whenever you want a dessert with whipped cream as a basis, simply open a can of Carnation, pour the milk into a chilled bowl, add 1/2 teaspoon gelatine (dissolved) to cup of milk—and whip!

Carnation makes wonderful desserts, rich and smooth and creamy. It has a double portion of cream, you know, broken up into the finest particles so it stays distributed all through the milk. Its richness and fine texture make candies and ice creams, cream sauces and soups, puddings and cakes exceptionally fine-textured and delicate. And when you think that this pure whole milk—evaporated for convenience and sterilized for safekeeping—costs only one-third as much as whipped cream, you will surely want to use it for all your cooking.

Send for free Cook Book. Address Carnation Milk Products Co., Limited, 184 Abbott Street, Vancouver, B.C.

**Carnation Macaroni Dessert**

1 1/2 tsp. gelatine, 3/4 cup water, 9 macaroni, crumbled, 1 1/2 cups Carnation Milk, 2 egg yolks, slightly beaten, 1/4 cup sugar, 1 tsp. vanilla. Soak gelatine 5 minutes in 3/4 cup water mixed with 3/4 cup Carnation. Scald 3/4 cup Carnation diluted with 3/4 cup water; pour over slightly beaten egg yolks to which the sugar has been added; cook in double boiler until mixture thickens slightly (about 3 minutes); pour over gelatine and stir until dissolved. When cool, add vanilla. Whip 1 cup Carnation which has been chilled for a couple of hours, gradually add gelatine mixture and stir until it begins to thicken. Add crumbled macaroni and garnish with maraschino cherries or nuts. Serves 5.

**Carnation Chocolate Charlotte**

1 1/2 tsp. gelatine, 2 tsp. cold water,

## Rich for Desserts

Carnation Milk is doubly rich in cream. It makes the most delicious desserts. It is dependable, too. Pure, whole milk, sterilized for safekeeping. You'll find it more convenient, more economical than milk in any other form.

(See recipes above)

## from Contented Cows

on the label means EVAPORATED MILK of highest quality

yachts and other craft, says Popular Mechanics Magazine. During the recent school year, three boats, valued at \$48,000, were built by the young shipwrights from materials furnished by the owners.

## A Modern Hygienic Service

Women can't afford to do without

To millions of women, Kotex, the New and Improved Sanitary Napkin is a hygienic service which they would never think of doing without. For a few pennies, they obtain absolute security and wonderful freedom from worry, not found with old fashioned napkins.

Doctors and nurses urge Kotex because it protects against serious consequences that may easily follow times of hygienic distress.

No embarrassment when buying. Just say Kotex at any drug, dry goods or departmental store. Regular size 60c for box of a dozen. Super-size 75c. Directions in every package.

MADE IN CANADA

**KOTEX**  
Sanitary Napkins

5 Features of the New and Improved Kotex

1. Softer gauze ends chafing. Pliable filler absorbs amazingly.
2. Rounded and tapered. No evidence of sanitary protection.
3. Deodorizes—safely, thoroughly by a new and patented process.
4. Adjust it to your needs—thinner, narrower, as required.
5. It is easily disposed of. No unpleasant laundry.

## HOW OFTEN DO YOU BATHE?

**YOUR** body is constantly giving off perspiration—from one to two pints every 24 hours. This moisture dries so quickly that sometimes you do not realize its presence.

Health authorities everywhere say that, to preserve your own good health and self respect and out of consideration for others, this film of dried moisture should be washed off daily.

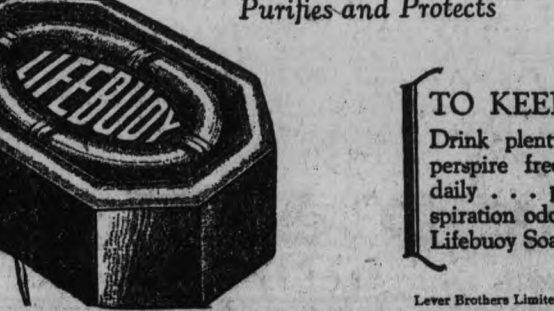

Gently, soothingly, Lifebuoy's creamy antiseptic lather washes away this film. It penetrates and cleanses the countless tiny pores of the skin—opens them up—lets them breathe—relaxes tired, tensed nerves and muscles, makes the world look brighter.

And more—Lifebuoy's antiseptic ingredient will stand guard as an invisible shield against infection.

Every day let Lifebuoy purify the pores of your skin and keep them clean—antiseptically clean—and sweet.

## AT THE THEATRES

### INCIDENTAL MUSIC AIDS INTERPRETATION OF AEROPLANE EPIC

One hundred and twenty aeroplanes were used by William Wellman, one of Hollywood's youngest directors, in filming the battle scene of the St. Mihiel drive for "Wings," the great Paramount war aviation spectacle now showing here at the Coliseum Theatre.

"Wings," which was nearly two years in the making, is a story of the World War from the aviator's standpoint.

In connection with the showing of this great picture epic of the air, the Coliseum orchestra provides a special musical programme. The orchestra's interpretation of the plane noises as they soar aloft in the clouds is particularly effective.

On the stage this week the Coliseum Players are appearing in a show entitled "Tricked." It is a clever little production and well merits the ap-

plause with which it has so far this week been received.

### OLD-TIMER OF FILMS PLAYS DOCTOR ROLE IN "THE HARVESTER"

Jay Hunt, perhaps one of the best known old-timers on the screen to-day, has a role in the FBO film, "The Harvester," which is now playing at the Playhouse Theatre. Mr. Hunt gained considerable movie fame for his wonderful work in "Old Lighting," but his real claim to fame goes back to the days of the older Barrymore, of William Faversham, and Otis Skinner. At that time he was renowned as being one of the best character actors on the stage.

### DESERT MIRAGE WAS WITNESSED BY CAST OF COLUMBIA FILM

An extraordinarily fine mirage was one of the sights to which Warner Bros. "The Desired Woman," now showing at the Columbia, company was treated during the filming of desert scenes near Yuma, Arizona. As Irene Rich, star, and Michael Curtiz, director, afterward learned, they were fortunate, as sky illusions seldom occur in this region and only under the most favorable circumstances. The scene which they seemed to see and which persisted for several minutes was identified as the harbor and waterfront of San Diego, several hundred miles west, and on the far side of a mountain range.

### SONG HITS ARE BIG FEATURE OF "BROADWAY BABIES"

Have you heard "Broadway Baby Dolls." "Wishing and Waiting For Love" and "Jig, Jig, Jigaloo," lilting melodies of Alice White's starring picture at the Capital Theatre? Almost everyone is whistling the gay tunes, written especially for this picture, which is a story of Broadway and its theatrical life. It is a first National Vitaphone singing, dancing and talking picture, with plenty of pep and jazz throughout.

"Broadway Babies" is adapted from Jay Gelzer's story "Broadway Musketiers," and was directed by Mervyn LeRoy.

## DEATH IS "ANSWER" TO PLANS OF MAN AND WOMAN PILOTS SEEKING ENDURANCE RECORD

They had christened their plane "The Answer," had Viola Gentry and Jack Ashcraft, two New York fliers, because they planned to keep it in the air longer than the famous "Question Mark" or the Kelly and Robins planes had flown. But, as this photo shows, the name took on a grim significance in connection with their hopes, for it crashed near Roosevelt Field and killed Ashcraft, upper left, and seriously injured his girl companion, upper right. After a night in the air on their endurance flight attempt, the pair were swinging back to the field when the craft went into a tailspin and hurtled 2,000 feet straight down through the fog.

### "DANGEROUS WOMAN" AT DOMINION FOR LAST TIME TO-DAY

Bacalova has been under long term contract to only two companies during her stage and screen career. She played with the Moscow Art Theatre until Paramount signed her to the film contract she now holds. Her first all-talking production, which followed a number of silent films, was "The Wolf of Wall Street," in which she played the romance-loving wife of George Bancroft, using to advantage her appealing Russian accent.

She plays the role of a Russian woman of high estate and a haughty bearing coupled with a man-hunting propensity in her almost recent production, the Paramount all-talking picture, "A Dangerous Woman" based on a story by Margery Lawrence in Cosmopolitan magazine, shows at the Dominion Theatre for the last time to-day.

### KIDDIES' REVUE TO SHOW AT COLISEUM

Replacing the Coliseum Players, who have left the theatre for the summer holidays, Manager George McEwan will present next week, in conjunction with a feature screen attraction, "The Winnipeg Kiddies' Revue."

According to advance reports this revue is one of the finest of many junior shows in the country. Each individual member of the troupe is a star and is featured in specialty numbers. There are ten youngsters in the revue, of them over fifteen years of age. Together they will perform dances, while the soloists will give songs and comic numbers.

It is the intention of Mr. McEwan to present some vaudeville act on the stage at the Coliseum, with a feature picture, for the remainder of the summer weeks. In the fall he expects to stage the same or another stock company to appear in plays for the winter months.

### LOST TRIBES ARE BRITISH

Herbert Garrison, F.R.G.S., Tells British Israel World Federation

The close relationship between British and American peoples was stressed by Herbert Garrison, F.R.G.S., in a second address in the Chamber of Commerce Rooms last night, speaking on the greatness and meaning of the British Empire.

Mr. Garrison was introduced by W. H. Blackaller as the secretary-general of the British Israel World Federation. Ten million more people of British extraction live in the United States than in the British Isles, stated Mr. Garrison. The United States was settled by British people and its leaders are of British extraction, continued the speaker. For this reason Great Britain could not think of the United States as a foreign people. To his mind the relationship was more nearly

### PRAISES ERBAC FOR WEAK, TIRED, NERVOUS WOMEN!

Gives New Ambition and Courage  
Abundant Vitality and Strength  
Or Its Uses Costs Nothing

No matter what your age may be or how many treatments you have tried without success—don't get discouraged and think your case is hopeless—until you have tried a 30-day treatment of Double Strength Erbac, without slightest risk of cost unless fully pleased!

Double Strength Erbac, endorsed by Doctors and praised by hundreds of grateful users, is a special private formula designed to build life-giving, age-defying Nerve Force and abundant vitality—and should not be confused with ordinary Nerve Tonics or "so-called" body builders.

Here's the amazing Erbac offer! If you are weak, tired, nervous and rundown, if you can't sleep nights, if you lack the ambition and energy to accomplish the things you would like to do—go to your drugist and get a package of Double Strength Erbac. It costs, take it regularly according to directions for the full 30 days, and if you are not wonderfully pleased with results you can have your money back!

NOTICE TO READER: Above money back guarantee is absolutely genuine and no-lose. Manufacturers are responsible. (Adv.)

that of brothers than cousins, said Mr. Garrison.

Touching on British Israel matters, the speaker traced the events in world history by which it was argued by British Israelites that Britain is the lost Israel, with a destiny rich in promise. The Anglo-Saxon race, he continued, could be traced back to Media and the shores of the Caspian Sea, the region where the Northern Kingdom of Israel was driven out by the Kings of Assyria. Britain possessed Hebrew coinage, heraldry and words, and nationally keeps the Sabbath as an institution, concluded Mr. Garrison.

Rev. W. Pascoe Goard spoke briefly, following Mr. Garrison, and will deliver to-night the last lecture of his series on the subject of "The Unchanging Purpose of the Ages."

### BOY SCOUTS ON PRAIRIES

Full Blooded Indian Lad From Port Simpson Among Party En Route to England

Winnipeg, July 10.—Bound for Birkenhead, England, where they will participate in the international Boy Scouts' jamboree, twenty Boy Scouts and their leaders from British Columbia, Yukon, Alaska, and Manitoba left Winnipeg yesterday morning over Canadian National Railways for Ottawa.

At Ottawa, one week's training will be given the boys before they sail for England. Heading the British Columbia delegation is Norman Saunders, secretary of the Boy Scout movement for the province.

## FREIGHT TRAFFIC AT NEW HIGH PEAK

New York, July 10.—Movement of freight in the first half of 1929 was the greatest for any corresponding period on record, the car service division of the American Railway Association announced to-day.

Loading of revenue freight for the

first twenty-six weeks this year totaled 25,596,938 cars, which exceeded by 75,898 cars the best previous record.

It is of interest to note that domestic freight car orders in June, although not equal to the 8,364 ordered in the previous month, were more than double the number of cars placed in order in June of last year. There were 59,129 cars ordered in the first half of the current year. This was 7,929 more cars than were ordered in the entire season of 1928.

The locomotive market was also active during June, with 181 engines ordered, which was the largest total for any single month since May, 1927.

## J. A. McDONALD, WINNIPEG, DIES

Winnipeg, July 10.—John Archibald McDonald, sixty-five, former member of the Saskatchewan Legislature and member of a well-known family of western pioneers, died in his room in a local hotel yesterday.

He was the son of Archibald McDonald, a chief factor of the Hudson's Bay Company, long established at Fort Qu'Appelle, Sask.

## DAVID SPENCER LIMITED

Marrage may bring flighty young men down to earth, but it will be a precarious route that John Charles Krajcik, left, will take to his wedding. He literally is going to jump into matrimony. Krajcik is one of ten army men holding the world's parachute record, and he intends to leap out of a plane at 5,000 feet and drift down to a field at Newark, N.J., to say his "I do's" with Miss Elizabeth Sals, centre. By manipulating the cords of his chute, he expects to be able to manoeuvre right to the side of his bride-to-be and the minister. The couple here are being congratulated by Captain J. O. Donaldson, chief of the Newark Airport.

# Track and Field Stars Gather For Vancouver Meet

## Canadian Athletes Meet Challenge of U.S. This Week-end

Percy Williams Will Lead Half-dozen of Olympic Teammates Against Invasion From South of Line in One of Greatest Athletic Contests Ever Staged in This Province; Relay Teams Will Attempt to Lower Record; Local Athletes to Compete.

Vancouver, July 10.—Percy Williams and half a dozen teammates of the Canadian Olympic team of 1928 will gather here Friday and Saturday to meet again the challenge of United States champions, in the invitation meet which is being staged by street railway employees.

The Olympic champion and his running mate, Johnny Fitzpatrick of Hamilton, will face an old rival in Frank Wykoff, California's Olympic star, who heads the United States sprinting invasion. With Fitzpatrick and Williams will be Vic Pickard, Canada's vaulter, and the Canadian Olympic girls' relay team, Myrtle Cook, Florence Bell, Jean Thompson and Ethel Smith.

Miss Ethel Catherwood, world champion high jumper, will also appear, although she is not expected to compete.

### TEST FOR WILLIAMS

It will be Percy Williams' first race against his peers on the track since which he sprang so suddenly from obscurity to fame, and here they are advertising this meeting as the "Century of Centuries."

To Williams this 100 yards promises to be his greatest sprinting test since the Olympiad.

Fitzpatrick, Pickard and the girls' relay team are expected to arrive here Wednesday afternoon. Claude Bracey, the Texas sprinter, and Hank Cummings, of the United States Olympic team, another sprinter, with Clyde Blackard, middle distance star arrived to-day. Meanwhile Percy Williams was in Seattle meeting Frank Wykoff and Eddie Tolan, "Michigan's Midnight Express" and George Hamm, the brilliant broad jumper.

### FINALS SATURDAY

Finals of the 100 and 220-yard dashes, which will bring the champions together, will be held Saturday with preliminaries Friday, but on Friday the attempt to lower the men's 440-yard relay record will be made by Williams, Fitzpatrick, Bracey and Tolan, against a team of Los Angeles runners unnamed as yet but likely to include Wykoff, Cummings, Hamm and possibly Charlie Paddock.

The Canadian Olympic girls' relay will face Vancouver and Seattle teams composed of the best girl sprinters of both cities in their divisions. Individually Myrtle Cook and other members of this team, are expected to race in the 50 and 100-yard dashes. A number of other competitors at the United States national championships at Denver recently, are expected to compete here in other events.

### VICTORIANS ENTERED

Victoria's representatives at the big meet in Vancouver will include a number of the outstanding athletes of the city running under the colors of the Y.M.C.A.

George Aldous has been selected to compete in the half-mile race while Frank Skillings will match his strides with some of the best in the 220-yard event.

Arthur Thornton Fell, the premier field ace of this city, has entered the high and broad jumps.

Beverly Vale will be the lone woman contender from Victoria, competing in the fifty and 100-yard sprints. Archie McKinnon, physical director of the Y.M.C.A., will accompany the squad to the Mainland.

## Plimleys Win With Rally At Close of Game

After alternately leading and following the marks set by the Dodgers, Plimley's Garage Baseball Leaguers took the lead in the final innings of the league fixture played at the Willows last night and handed the Dodgers a 14-12 defeat.

Doug Meyers pitched for Plimleys, while Bridgewood did the hurling for the Dodgers.

## SOFTBALL

Foresters, "A" section softball team, went down to another defeat against Hillcrest last night when they failed to fathom the pitching of "Doc" Roynitz, veteran twirler for the winners, and gave Hillcrest still another victory to add to their string. The score was 5-1 for the hillmen.

Through their victory, Hillcrest climbed another rung in the second half championship ladder and strengthened their bid for the title. Two more wins will virtually clinch their right to enter the play-offs for the city championship.

Putman pitched good ball for the losers, but was given poor support by his field in the sixth inning when Hillcrest brought in four runners.

Johnson Brothers' Nifties went down to a fighting defeat in the other senior "A" league fixture of the evening when Sanich Thistles gained a 9-7 decision. The winners took a six run lead in the first inning. Nifties brought home seven runners in the fifth, sixth and seventh, but failed to make the grade in the remainder of the game.

In the "C" section, Burekas took an easy game from Albion Stove Works by a 12-1 score, while Hudson's Bay Company smothered the Vancouver Province with a 44-2 defeat. The Aztecs took their game by a default.

To-night's games follow: Canadian Scottish vs. Hustlers. Quads and Queens: umpire, Oliver. Parfitt Brothers vs. K. of C. upper diamond: umpire, E. Stock. Priors vs. Oklands, lower diamond: umpire, Drysdale.

## CANADIANS AT BISLEY ENGAGE IN PRACTICES

Bisley Camp, Eng., July 10.—The Canadian rifle marksmen competing in the National Rifle Association's Empire meet, which opened on Monday, to-day were largely occupied in gaining more practice at the various distances. Some of them engaged in the various sweepstakes, the programme being generally clear of all except rapid fire competitions and public school events. The Canadians will start heavy shooting at the end of the week, going into the famous team events and the King's Prize next week.

The weather continued fine to-day, but the sky was covered with light clouds, while moderate and variable freshening breezes prevailed.

## FLYING TACKLE OF SONNENBERG NEARLY MISSES

"Strangler" Lewis Throws Wrestling Champ For First Fall of Career

Belt Holder Comes Back Fighting Mad and Retains His Title

Boston, July 10.—Gus Sonnenberg took in another notch to-day in the diamond championship belt, after turning back the challenge of Ed "Strangler" Lewis, from whom he wrestled the championship six months ago.

Twenty-five thousand customers crowded Fenway Park and paid \$90,000 to see the second encounter last night. The former Dartmouth football player suffered the first fall of his eighteen months mat career last night but came back with the famous flying tackle he borrowed from the gridiron to flatten Lewis twice in twenty-two minutes.

Lewis successfully avoided Sonnenberg's butting charges at the start. With seventeen minutes gone he jumped aside from one of the champion's charges so easily that Sonnenberg nose-dived to the mat. The "strangler" jumped on him and obtained a breast lock for the first fall. Sonnenberg came back fighting mad but almost lost the match several times when Lewis clamped a headlock on him. Finally, however, he butted successfully to take the second in nineteen minutes. The deciding fall came three minutes later after Lewis had knocked Sonnenberg out of the ring.

## HORSE RACING

Reno, Nevada, July 10.—Conquistador, speedy son of Hybr, raced in brilliant fashion to defeat New Hampshire and Short Price in the Tuesday feature here over the five and one-half furlong route. The winner, a favorite, paid \$5 to win.

Rock of Ages, from the Baby Shoe stable at Salt Lake, surprised racing followers by winning the fourth, beating Pecora, favorite, and Genesee Belle. The Salt Lake mare's price was \$22.

Besides Conquistador, three other favorites won. Leo Lampe in the sixth paid \$3.90. Air Castle took the seventh, while Cleo's Rochester accounted for the eighth.

Brown, winner of the first; Lloyd Brown in the second, and Master Rock in the third paid \$17.80, \$14.20 and \$12.20, respectively.

Jockey Dyer celebrated his return to the saddle by winning the day's riding honors with Adolph Benoit. Each rode two winners.

## LOAN PLAYERS AND LOSE GAME

Oaklands Lacrosse Team, Completed With Rivals' Men, Beat South Park 6-2

When South Park lacrosse team loaned Oaklands two of their men to complete the latter squad, Oaklands turned around and handed the Park a 6-2 defeat in an exhibition game played at the Royal Athletic Park last night.

Owing to the failure of Oaklands to field a complete team, the championship series, which should have started yesterday, was postponed until next Tuesday.

Although the Parks dominated most of the game, they were unable to beat Pottinger in the opposing goal and went scoreless until the final quarter. At half-time Oaklands had a 3-0 lead. These counters were scored by Art Chapman, McDonald and Williams.

The teams played through a scoreless third period, to go on the offensive again in the last quarter. Taylor, Chapman and Williams added three more tallies to the winners' total in this frame, while Cann and Hardy sagged Oaklands' help for the Parks. Only goals.

Frank Smith refereed and the teams were: Oaklands—Pottinger, J. Taylor, C. Chapman, Alexander, Merriman, Burnett, L. Chapman, A. Chapman, Williams, Taylor, Akim and McDonald.

South Park—Bradley, Claud Bissell, Bob Sherret, Jenks, Len Bryant, Darrel Bissell, Hardy, Oil Marginson, Clark, Bill Pister, Lloyd Conn and Eric Clark.

### OLIVERS WIN

Vancouver, July 10.—Olivers of Toronto defeated Generals, local baseball team, here last night by a score of seven runs to two. Pryor did the driving for the tourists.

## Miracles of Sport

By Robert Edgren

## Hope Leeming Is Shining Light In Tennis Tourney At Kelowna

Kelowna, B.C., July 10.—Miss Hope Leeming, Victoria, continued to make progress in the interior tennis championships here yesterday, defeating Miss Griffiths, Kelowna, 6-0, 6-1, and meets Miss Sparling, Seattle, to-day.

In the ladies' doubles, Miss Leeming and Miss Rithet, Victoria, defeated Mrs. McNichol and Mrs. Stewart, Kelowna, and in the mixed doubles Miss Rithet and J. G. Brown, Victoria, eliminated Miss Cornwall and her brother, from Kamloops.

## TERRIFIC LEFT HOOK OF GOLDIE HESS LEAVES TOD MORGAN GASPING FOR AIR

Junior Lightweight Champion Is Beaten by "Paulino of Ocean Beach" But Retains Title, Having Gone Into Ring Overweight; Appears to Tire Under Fast Pace and Opponent Takes Six of Ten Rounds; Canzoneri Wins Another on Road to 135-pound Title.

Los Angeles, July 10.—Goldie Hess, known in fight circles as the "Paulino of Ocean Beach," to-day had added another victory to his string of ring triumphs, and at the expense of the junior lightweight champion, Tod Morgan.

Only the fact that the title was not at stake saved Morgan his crown last night in a bout which ended with the lad from the beach city taking six of the ten rounds. The champion was awarded two, with the others a draw.

Hess swarmed all over Morgan from the start, chasing him about the ring. On the other hand, the champion seemed slow and was unable to get started.

A terrific left hook to the jaw staggered Morgan in the third, and from that time on Hess held the edge in the argument. The champion's best round was the fourth, when he came back after the disastrous third to show his opponent with rights and lefts. He seemed to grow tired from the pace, however, and failed to repeat during the remainder of the bout.

Morgan had gone into the battle on weight by agreement, matching Hess's 130 pounds. He was quoted as a favorite, which led ringside critics to offer the opinion that the champion probably underestimated his opponent.

### CANZONERI WINS

New York, July 10.—Tony Canzoneri, chesty little Italian, who once held the featherweight championship of the world, easily outpointed Phil McGraw, Detroit forist, in a ten-round bout at the Queensboro Stadium to-night.

Canzoneri won the decision hands down, outboxing the Detroit veteran in virtually every round.

It was Canzoneri's last bout before he engages Sammy Mandell in a battle for the 125-pound championship at C-jago next month. He weighed 134 pounds, the heaviest he ever has been.

McGraw scaled 132.

Winning the Suburban handicap at Belmont Park, Bateau, daughter of Man o'War, is the first filly victorious in that race in more than a generation. Meldame won it in 1905.

## STRONG LADIES' TEAM SELECTED FOR U.S. TOUR

Veteran Tennis Stars of Old Country Will Compete in Wightman Cup Series

Mrs. Michell, Wimbledon Champion, and Betty Nuthall Are Picked

New York, July 10.—England is sending a veteran women's tennis team to compete against the United States in the seventh annual Wightman Cup series at Forest Hills August 9 and 10.

In the British lineup will be Mrs. Dorothy C. Shepherd-Barron, Mrs. Phyllis K. Covel, Mrs. Peggy Saunders Michell, Mrs. Phoebe Watson and Betty Nuthall.

In doubles the British team will be exceptionally strong. Mrs. Shepherd-Barron and Mrs. Michell, Wimbledon champion, probably will form one combination and Mrs. Covel and Mrs. Shepherd-Barron, runners-up, at Wimbledon.

Another combination, Mrs. Saunders Michell and Phyllis Hodgson will represent the ladies' section of the club.

In previous years the local club has given very creditable exhibitions across the Straits.

The British team will sail from Southampton on July 20, and expect to take part in one or two grass court tournaments before the Wightman Cup series. Then they plan to participate in the women's and mixed doubles championships and in team matches at Chicago, Kansas City, San Francisco and Los Angeles.

## PORTLAND MAN MEDAL WINNER

Don Moe Leads Field in Qualifying Round of Western Amateur Golf

Mission Hills, Kansas City, Mo., July 10.—Don Moe, from Portland, Oregon, yesterday captured medal honors in the qualifying round of the thirtieth annual Western Amateur Golf Tournament here. Moe's card of 144 strokes for 36 holes was one stroke better than the total of Keefe Carter of Oklahoma City, who was champion in 1925. The Portland golfer turned in two consistent par 72 rounds to top the field.

For the first time since he began competing in the western amateur "Chick" Evans of Chicago, eight times title holder, failed to qualify. His two-day total was 154, a good 75 falling to stone for an 81 of Monday.

## Emmett Pare Is Clay Court Champ

Indianapolis, Ind., July 10.—Emmett Pare, Chicago, won the United States clay court tennis title, championship yesterday by defeating J. Gilbert Hall, South Orange, N.J. The scores were 6-4, 6-5, 4-6, 3-6, 6-1.

## CHICAGO SERIES PROVES DISASTROUS FOR MACKMEN AS YANKEES ARE CLIMBING

White Sox Take Three Out of Four From Athletics

While Yanks Give Similar Dose to Browns and Cut Down A's Lead; But Mr. McGillicuddy Not Worrying Much Yet; Pirates Gain a Breather in National When Cubs Are Thrown for Loss.

Just when it seemed that Connie Mack was headed for open country where even his rearguard would be safe from any Yankee thrust, the Athletics began absorbing taps on the chin from the humble Chicago White Sox. The champion Yankees perversely chose the exact moment of Mr. Mack's greatest distress to launch a series of raids upon the St. Louis Browns.

The Huguenots won three out of four in St. Louis. The Macks dropped three out of four in Chicago, and by this gesture spared two full games from the Athletic lead in one brief series. The Macks were out from this morning with a margin of seven and one-half games. The Philadelphia host still has little to worry about, but soon may have plenty, unless the brakes can be applied.

The Yankees had to call on three of their first string pitchers to shade the Browns by 8-7 in the getaway game at St. Louis yesterday, but Herb Pennock had enough stuff to register a troublesome third out in the ninth, and the champions were saved. The Huguenots are winning a lot of their games by the fair line decision of one run, but the important fact is that they are winning them. These one-run victories often can mean the difference between first place and the second division in the course of a season.

### BABE HITS WELL

Babe Ruth provided the Yankee margin yesterday with his eighteenth home run and a triple. The homer was registered at the expense of Wally Stewart in the fourth with none out and nobody on base. The Yankees followed up the Babe's blow with three more runs to lead by 3-0. Heinie Mann's homer in the fifth helped the home team to tie, but the Yankees won the game all over again in the seventh, which Ruth started with a triple.

Then in the ninth with Hoyt in the box as a successor to the Messrs. Wells and Zachary, the Browns again became troublemakers. They had one run in, the bases filled and two out, when Pennock took the reins. Schang got an infield single, but Farrell grounded into a forced out at third, ending the game.

The Athletic reverse at Chicago was brought about by a double failure—the Macksmen at bat and Jack Quinn in the box. Urban Faber held the Philadelphia bats to eight hits by win by a 2-1 score.

Washington, shaded Detroit by 2-1, but the Boston-Cleveland game was rained out.

### PIRATES STILL ON TOP

The Pittsburgh Pirates gained a bit of breathing space for themselves by dropping the Brooklyn Robins by 3-1 at Ebbets Field as the Boston Braves dropped the Chicago Cubs on the ropes 6-2, for the second time in three games. These two results increased the lead of the Pirates to one and one-half games, but the New York Giants gave the leading teams further cause to worry by cleaning up their fourth straight against the Cincinnati Reds, 8-5.

Clise Dudley had an edge over Remy Kremer for seven rounds in Brooklyn, but weakened in the last two. Pittsburgh got two runs on five hits in the eighth, and added a decorative marker on Lloyd Waner's homer in the ninth. Cohen collaborated in driving victories scored by Delphie Bissonnette. Ben Cantwell stopped the Cubs with five hits, and Joe McCarthy's second pitching string, represented by Bubba Jordan and Mike Cevengro, was overmatched.

### KELLY GETS TWO HOMERS

Long George Kelly celebrated at the Polo Grounds with two home runs, which accounted for all the Cincinnati scoring. Fred Lindstrom and Andy Cohen collaborated in driving seven of the eight Giant runs on three hits between them. Cohen got only one of these, but it was a homer with one on base. This time Kelly's lessor Reds were removed from the premises for thinking out loud on the bench.

Two circuit drives by Jim Bottomley enabled the St. Louis Cardinals to lead their rivals in Philadelphia. The score was 7-4 in ten innings. The Cardinals' lead in Philadelphia was 11-0.

## TILlicums AND EAGLES TO MIX

Leaders and Cellar Crew Will Meet in Ball Fixture To-night

To-night's game in the Senior Amateur Baseball League, while it brings together the topnotchers and tailenders in the circuit, will probably have an important bearing on the flag race. Only half a game ahead of the Jokers, the Tillicums are hard pressed to maintain the first position, and will need a victory to keep them out of the tie with the second berth holders. On the other hand the Eagles, warming up in the cellar, could do nicely with a win to get their feet on the upward ladder.

McDonald has been chosen to do the twirling for the Eagles, while either Cann or White head will be detailed for slab duty opposing him.

The game will commence at 6-15 o'clock at the Royal Athletic Park. The league standing at present follows:

	Won	Lost	Pct.
Tillicums	5	3	.625
Jokers	5	4	.558
Sons of Canada	4	4	.500
Sidney	3	4	.429
Eagles	3	5	.375

## England Lines Up Strong Polo Squad For Trip

London, July 10.—With some of Britain's finest polo talent in the lineup, a formidable team is to invade the United States this season in preparation for the attempt next year to recover the famous Westchester Cup. The team will include Captain C. H. Tremayne, handicapped at seven goals at No. 3, Colonel K. P. Wise, nine goals, back, and Captain Selby McCree, seven goals, No. 1, while Earl W. Hopping, eight goal United States player, who has been organizing the team, will play No. 2. The team will leave England on July 31 and will compete for the United States open championship in September.

Tremayne has been appointed captain of the English international team which will oppose the United States holders of the Westchester trophy next year. It is probable that McCree, who played for the British army against the United States army in the 1923 and 1925 international military contests, will be one of the reserves chosen to accompany England's team to the United States next year.

## "Dutch" Reuther With Sore Arm Fails on Coast

San Francisco, July 10.—Wade "Red" Killefer, president of the San Francisco Mission Reds, announced yesterday he had asked for waivers on Walter "Dutch" Reuther, veteran left-hander and one-time New York Yankee star. The waiver price is \$3,000.

## Old Country Cricket Scores

London, July 10.—Oxford University scored 345 runs for the loss of eight wickets in the first innings when they closed yesterday in their annual inter-university cricket match with Cambridge. The score compared with 322 for eight wickets scored by the Light Blues on Monday. Cambridge's first innings concluded yesterday for 377 runs.

Essex defeated Warwickshire by ten wickets in their county cricket match ending yesterday. The score: Essex, 359 and 25 for no wickets; Warwick, 196 and 187.

Other results:

Derby, 218 and 99 for two wickets; Worcester, 73 and 240.

Lancashire, 189 and 41 for no wickets; Northants, 130 and 99.

The match between Nottingham and the South Africans at Nottingham was left drawn. Scores: Nottingham, 476 and 177 for four wickets, declared; South Africans, 304 and 191 for six wickets, rain.

Yorkshire, 324 for nine wickets, declared; Surrey, 156 and 137 for one wicket.

Gloucester, 185 for six wickets, declared; Surrey, 121 for two wickets; Middlesex, 184 and 121.

Sussex, 243 and 214; Somerset, 298 and 126 for five wickets.

Kent, 477; Hampshire, 247 and 180 for seven wickets.

Calgary, July 10.—A feat of human endurance was performed at the Stampede here yesterday when Lee Farris of De Winton, Alta., known far and wide as the "Canada Kid," continued to ride a brahma steer after his right eye had been pulled out by one of the beast's horns. Farris finished his ride to take the prize money for the day for the event, although he suffered his injury early in the test. He was taken to a hospital after the ride and the remains of his eye were removed on the operating table. His condition is serious, but he is expected to recover. Last year the "Canada Kid" was the champion all-round cowboy.

## Victoria Tennis Aces Perform Well In Northwest Tourney

ROSS "BUD" HOCKING MARJORIE LEEMING

"Bud" Hocking and Miss Leeming, after cleaning up the men's and ladies' clay court titles respectively in this city last week took a trip down to Portland where they are engaged in the Pacific Northwest sectional championships. Hocking reached the final and will meet Mel Dranga of Seattle for the title. Miss Leeming had no trouble in reaching the semi-finals in the ladies' section.

Portland, July 10.—Ross Hocking of Victoria, B.C., and Mel Dranga, Seattle, advanced to the finals of the Pacific Northwest sectional tennis tournament here. Hocking defeated Rogers MacVeagh of the Irvington Club, Portland, 6-3, 7-5, 4-6, 6-4, and Dranga eliminated Jack Rhine, Mulnomah Club, Portland, 6-0, 3-3, 6-4.

In the sectional doubles, Shields and Ryall of Vancouver, champions for the last two years, reached the semi-finals by defeating Hines and H. Smith, 6-2, 6-2, 4-6, 6-4. Johnson and Lewis have reached the finals by eliminating O'Hara and Brown 6-1, 6-2, 6-4.

Bob Rhine of Portland and K. Hynes of Seattle will play in the junior division of the sections, Rhine having beaten R. Welch of Tacoma, 8-6, 6-8, 6-3, and Hynes having downed Bob Johnson of Portland, 7-5, 1-6, 12-10.

In the state division of the tournament only one upset was recorded. That occurred when Herb Suhr, San Francisco, defeated Kenneth May, seeded No. 3, in three sets, 2-6, 6-4, 6-2.

Marjorie MacFarlane, ex-New Zealand champion, seeded No. 1 in the women's singles, advanced without trouble, as did Marjorie Leeming of Victoria, Gilda Myer Gross of San Francisco, defending champion, and Marion Green of Portland.

## Bobby Jones On Golf

Problem of Growing Suitable Putting Greens Now Given Attention of U.S.G.A.

To one who has played a great deal of golf on courses scattered throughout the country, the need is apparent for developing grasses and modes of treatment which can be made to yield decent putting greens, at a cost which will not be prohibitive for the smaller clubs.

Wealthy organizations like Brookline in Boston, Old Elm or Chicago Golf Club in Chicago, Oakmont in Pittsburgh, can afford to spend the \$25,000 or \$30,000 a year which it costs them to keep their courses in good condition.

On these courses and others similarly groomed, the putting greens are excellent and golf is a real pleasure. But the little fellows in the smaller cities are not able to spend enough money in experimentation, importing soil or sod, and in many other operations necessary to discover grasses and fertilizers suited to the particular soil conditions of the locality.

The average person playing simply for the enjoyment of the game can tolerate almost any kind of a fairway. Bad lies cause him some annoyance, it is true, but there is nothing which spoils his game like uncertain or badly kept putting greens. And the worst of it is that the putting greens offer the real problem to the greenkeeper.

**SMALLER CLUBS TO BENEFIT**

The United States Golf Association is progressing rapidly with its work conducted through the Green Section directed toward solving the green-keeping problems, particularly of the smaller clubs. The progress already made if continued will make this work the most important contribution that has ever been made to the game of golf.

By placing at the disposal of the greenkeepers the scientific knowledge of numbers of experts derived from experiments with all kinds of grasses and fertilizers in different soils, and by simplifying the eradication of insect pests and the treatment of grass diseases the ultimate result will be to effect economies which will make it possible to maintain fine putting greens at a cost within reach of nearly everyone. The association is spending nearly \$30,000 each year in this work, and maintains experiment stations in several sections of the country.

The plan is to establish as many of these stations as it is possible to maintain so that a study may be made of the adaptability of certain grasses to certain sections. Naturally, it is not expected that the grass which thrives best in the metropolitan district will do well in Georgia. To be of any value the grasses must be tested under the conditions in which they are to be grown. In furtherance of this plan, in cities supporting several golf clubs, these clubs are being asked to co-operate with each other in supporting an experiment station to be operated under the direction of the green section. Courses in any one locality have substantially the same greenkeeping problems, and by maintaining such a station at their joint expense, valuable information should be available at very small cost to the individual club.

**RESEARCH WORK NECESSARY**

It is impossible to see what very great benefits may result to the game from this work. Our own problems in Atlanta furnish a fair illustration. For years we have been forced to use Bermuda grass on our putting greens during the hot months of summer. Unable to develop a grass which would thrive in its stead or to discover a means of refining that which we can grow, mainly because no club has been able to make an outlay sufficient

to attack the problem scientifically, we have had to worry along with the best we could get. We are now arranging to put in the experimental plot referred to and while we expect no immediate results, we have every reason to believe that within a few years we shall be able to find something which will give us good putting greens.

Our section is by no means the only one where there is need of research. In fact, there are only a few places where putting greens are as good as they might be. The green section offers the only means except pure guesswork, of arriving at a mode of treatment or a kind of grass which will be successful under the agencies of soil and climate in a particular locality.

(Copyright 1929, By the Bell Syndicate, Inc.)

Of the 150 golfers in the recent open golf tournament, Fred McLeod probably saw more service in tournaments than any other. The little Scotsman has played in every national open championship during the last twenty-seven years.

Discovers  
**Sternol**  
THE WORLD'S  
FINEST MOTOR OIL

1256 Nelson St., Vancouver, B.C., July, 1928.

British Agencies Limited, Vancouver, B.C.

Dear Sirs:

I first met Sternol at Calgary Exhibition, 1928, through a friend demonstrating it. He told me that it was a British oil, and knowing that the British never tried to get a market with a poor product, I tried it in a 1928 Essex, and I made a find. My machine ran cooler and very little evaporation at five hundred miles. Did you ever drive a well fed horse that was willing to go? You didn't feel like helping him to push. That is the way you feel with Sternol.

Sincerely yours,

(Signed) R. V. OWEN.

## NEWS IN BRIEF

The City School Board will meet tonight at 8 o'clock to consider a brief agenda of routine business. Repairs under way at city schools during the summer holidays will be reported on.

An outbreak of fire at 3102 Albany Road at 1:45 p.m. to-day occasioned a run by the Victoria Fire Department. Fire broke out in the roof, but was extinguished before much damage had been done.

The Rocky Point School annual picnic, held at Burdick's Beach, was attended by forty people. Sports for young and old were held. Ice cream, strawberries and oranges for all were served. The ladies served tea at 5 o'clock.

A concert will be given by the band of the Victoria fire department, under Conductor Al Prescott at Stadacona Park this evening. The concert will commence at 7:30 p.m., and is one of a series to be given voluntarily by the firefighters during the summer season.

A grass fire in the 1,900 block on Crescent Road provided a run for the Duesenberg fire engines at 9 p.m. yesterday, when city firemen responded to a call turned in to the Oak Bay police. The fire was checked without damage being done. A smouldering cigarette was given as the cause of the fire.

DeLass W. Walker, public relations director of the American Broadcasting Company, Seattle, Wash., will address a joint meeting of the Tourist Trade Group and the Victoria and Island Publicity Bureau at the Chamber of Commerce at 12:15 Friday. H. E. Boorman, chairman of the group, will preside.

Mr. W. E. Harper, president of the Royal Astronomical Society and popular lecturer of CPCT, will address radio listeners on "Discoveries in Astronomy" commencing at 8:30. At 8:45 to night, a few minutes after Mr. Harper's address, the Crystal Garden Comedy Company will present John Gabbott's comedy, "Philips Comes Back."

The Victoria Sea Cadets are now going through a two weeks' training course at Brentwood, and have established headquarters at the college there. At this, their first camp, they are under the command of Commander Tribe and Captain Phillipson, and are using for their training the ship's boats which belong to the Navy League.

Army and Navy Veterans of Canada, Victoria Unit No. 12, will hold their usual weekly smoker in the canteen, 512 Fort Street, at 8 o'clock Saturday night. The next general meeting of the unit will take place on Thursday, July 18, at 8:30 o'clock. At 8:45 to night, a few minutes after Mr. Harper's address, the Crystal Garden Comedy Company will present John Gabbott's comedy, "Philips Comes Back."

The annual picnic of the Victoria Horticultural Society will be held on the grounds of the Elk Lake Athletic Association on Saturday. Tallies will leave the City Hall for the scene at 2 p.m. Sports and refreshments will be provided on a programme of entertainment. Members wishing to attend are asked to notify F. E. Boulter, the secretary, at 538 Obed Avenue.

Frank Clark, provincial public works engineer in charge of development work in the Peace River block, is in the city this morning, and officials of his department. A uniformly good crop is expected in the Peace River block. The estimated yield of the Peace River block is estimated at 1,250,000 bushels, while in the Alberta Peace River district the yield is expected to be over 11,000,000 bushels.

Interest being shown in the Chamber of Commerce excursion to Port Renfrew on the Princess Patricia, Wednesday, July 31, indicates that the capacity of the C.P.R. vessel will be taxed to the limit. The excursion offers an excellent opportunity for an interesting day's outing. The Patricia will leave Victoria at 9 o'clock in the morning. She will take three and a half hours on the trip, leaving the party four and a half hours on shore.

A charge sheet without a single name on it represented the peaceful and orderly activities of Victoria citizens to-day as the daily session of the City Police Court was adjourned without a single case to be heard. The clean sheet has become a frequent occurrence here that the old custom of presenting a pair of white gloves to the magistrate has long been dropped.

Mr. and Mrs. Gray, recently from England, have purchased Dr. David Donald's property on the Island Highway.

Miss Margaret Kinney, R.N., has been the guest of Mrs. Clifford Walker of "Forest Gate," Leigh Road.

Miss Ada Simpson left on Monday to visit relations in Vancouver.

Fred Slick of Victoria has been the guest of Irvine Walker, Leigh Road.

The annual public school meeting will be held on Saturday, July 13, at 7:30 p.m. in the schoolhouse, for election of a trustee and an auditor. Mrs. A. C. Jackson's terms as trustee has expired, and also that of the auditor, H. A. Hincks.

The remains of Lillian Maude Beatrice Bennett were laid to rest yesterday afternoon, the services taking place at 3:30 o'clock at Hayward's B.C. Funeral Company's Chapel. There was a large attendance of friends and many beautiful floral offerings covered the casket and hearse. Rev. E. Moss officiated and interment took place in Ross Bay Cemetery.

Mr. Oliver R. Storer, president of the organ, and the hymns sung were "Abide With Me" and "Jesus, Lover of My Soul." The following acted as pallbearers: W. F. Phillips, H. F. Day, G. Hayhoe, A. E. Fraser, H. W. Prangnell and E. S. Michell.

The United States Government's part of the case was laid before United States Attorney George Hatfield, however, and investigators here were following clues obtained from Mrs. Kao's personal effects. These were in the form of notebooks and manuscripts, all written in Chinese.

Customs officers awaited the translation of these documents in the hope they would throw light on the identity of members of an alleged opium ring of international scope.

FOUND IN TRUNKS

Mrs. Kao's personal baggage was searched yesterday by customs officers after attempts by her attorneys to prevent the move by legal means had failed. The opium was found in trunks and suitcases brought from China last week in Mrs. Kao's name. She protested her ignorance of the contents of the baggage and said she had been persuaded by "influential friends" in China to bring in the baggage under consular franking privileges. Mrs. Kao declined to reveal the names of her "influential friends," declaring she might be put to death if she did so.

## SIX HUNDRED COAST FIRE CHIEFS COMING

Members of Pacific Coast Fire Chiefs' Association Here July 26

Six hundred fire chiefs, members of the Pacific Coast Fire Chiefs Association, will visit Victoria on July 26.

Details in connection with their entertainment here will be arranged by Chief Vernon W. Stewart and it is expected that Mr. Herbert Anscomb will address the leaders of the coast fire-fighting forces.

Chief Stewart is a very active member of the association. Following the arrival of the large party in the city on Friday, July 26, they will be given an opportunity to see something of Victoria and its environs, sight-seeing tours being part of the entertainment programme.

The visit to Victoria will follow the holding of the thirty-sixth annual convention of the Pacific Coast Fire Chiefs Association in Vancouver, commencing July 22.

Chief Tom Graham, president of the association, will preside over the convention proceedings. The bands of the Pasadena, Portland and Seattle fire departments will play in the city in conjunction with the band of the Victoria fire department.

The Luxton Hall committee are holding a dance Friday night, July 12, in Luxton Hall, dancing from 9 to 1. Pitt's orchestra will supply music, and refreshments will be served.

Congratulations are being extended to Mr. and Mrs. Geo. H. O'Neill, Sooke Road, on the birth of a daughter.

Miss T. A. Page of Victoria is the guest of her son, A. L. Page.

Mr. and Mrs. Frank Walde have moved from Dewdney Ranch, Sooke Road, and have taken up residence at Langford.

Jack R. Trace Jr. of Victoria is holding a dance with his grandparents, Mr. and Mrs. John Trace, Sooke Road.

Miss Greta Holden will leave on Thursday for ten days at the Girl Guide camp at Patricia Bay.

Miss Verna Smith left Sunday for Courtenay for the summer holidays.

Mr. and Mrs. M. A. Morrow recently had as guests Mr. and Mrs. Alan Millhouse and Miss Rita Millhouse of Victoria.

Mr. and Mrs. C. Smith have as guests their daughter-in-law, Mrs. A. W. Smith and her baby daughter of Courtenay, also Mrs. Paul Helan of Courtenay.

HEAVY WEATHER DRIVES SALVAGERS FROM THE VICINITY OF SUNKEN SUBMARINE

(Continued from page 1)

were held for saving twenty-one members of the crew of the submarine H-47. The men were entombed within their craft when it sank in 270 feet of water, twenty-two miles from Fishguard, between the Welsh and Irish coasts. The British naval vessel yesterday with another submarine, the H-12.

Naval men said it would be impossible for divers to work under the conditions presented by the wind and waves. They believed strong currents running off the Pembroke coast undoubtedly would shift the position of the ill-fated underwater vessel far from that indicated by rising oil bubbles after the disaster.

Twenty British naval vessels rushed to the scene, planning to conduct their salvage operations with Pembroke as a base. Rear-Admiral H. E. Grace, commanding officer of submarines at Portsmouth, was in charge of the work.

THE ADMIRALTY REVISIT ITS LIST OF CASUALTIES TO TWENTY-FOUR. Lieut. Blackmore, two sub-officers, two telegraphers, sixteen artificers, seamen and stokers, and the H-47, were listed officially as "missing."

A sub-officer and a signal man of the H-12 also were listed as missing. One seaman of the H-12 died of injuries.

Only two men aboard the H-47 were saved.

TILL ALL HOPE GONE

London, July 10.—An Evening News dispatch from Pembroke, Wales, to-day quoted an Admiralty official as saying "there is no possibility that someone may be alive in the sunken submarine H-47. We shall carry on until we have satisfied ourselves."

CONSUL'S WIFE'S OPIUM ANGERS CHINESE IN U.S.

(Continued from page 1)

The United States Government's part of the case was laid before United States Attorney George Hatfield, however, and investigators here were following clues obtained from Mrs. Kao's personal effects. These were in the form of notebooks and manuscripts, all written in Chinese.

Customs officers awaited the translation of these documents in the hope they would throw light on the identity of members of an alleged opium ring of international scope.

FOUND IN TRUNKS

Mrs. Kao's personal baggage was searched yesterday by customs officers after attempts by her attorneys to prevent the move by legal means had failed. The opium was found in trunks and suitcases brought from China last week in Mrs. Kao's name. She protested her ignorance of the contents of the baggage and said she had been persuaded by "influential friends" in China to bring in the baggage under consular franking privileges. Mrs. Kao declined to reveal the names of her "influential friends," declaring she might be put to death if she did so.

CARD OF THANKS

My father, Mr. Chow Kex, and myself tender our very sincere thanks to the Forestry Department and those gentlemen who so kindly assisted in suppressing a dangerous bush fire which broke out in our vicinity at Langford on Sunday last.

GEORGE JOE, Langford, B.C.

## Big Power Schemes Are Being Worked Out Now In Great Britain

London, July 10.—(By George Hamilton, Canadian Press Staff Correspondent).—Five district schemes have been approved by the central electricity board in the great "grids" which will link Great Britain with national transmission lines from Cornwall to the Grampian Mountains in Scotland. The five are central Scotland, southeast England, central England, northwest England and north Wales, and mid-east England.

These schemes will serve an area of 37,656 square miles or 42.8 per cent of the area of Great Britain. They will serve a population of 31,862,712 or 74.6 per cent of the total population. They will supply 85.2 per cent of the electricity sales of 1925-26. For this project contracts totaling over \$40,000,000 are required and the board reports "with special satisfaction" that "so far it has been able to place all these contracts with British firms."

## FIVE NEW M.P.'S ARE TO BE NAMED DURING MONTH

(Continued from page 1)

Roch Lancelot, Liberal member for the constituency, died during the last session of the House of Commons.

It is also intimated in Conservative circles here there will be no Conservative candidate in the other Province of Quebec constituency, Vaudeville-Soulanges, which was made vacant when Lawrence A. Wilson, Liberal, resigned just before the last session opened.

PRESCOTT DECISION ASKED

Prescott is a strongly Liberal constituency. In the coming election the contest is between E. D. Bertrand, a merchant of L'Orignal, and G. E. Evans, who was the member previous to the 1926 election.

It is also intimated in Conservative circles here there will be no Conservative candidate in the other Province of Quebec constituency, Vaudeville-Soulanges, which was made vacant when Lawrence A. Wilson, Liberal, resigned just before the last session opened.

LANARK BATTLE

In Lanark constituency are T. A. Thompson, of Almonte, the choice of the Conservative convention, and Dr. W. S. Murphy, of Smith's Falls, who the party convention was not a fair one of illness as the cause of the Conservative delegation from Smith's Falls walked out of the convention.

The constituency of Vaudeville-Soulanges has rolled up big Liberal majorities for a number of elections back, but Frontenac-Addington has sometimes changed its allegiance from the Liberal to the Conservative banner.

July 22 will be official nomination day in the five constituencies.

The disincorporation on the part of party organizations to jump into contesting the election was a general election next year and they are working their strength and resources for the more vital conflict.

## SHIP MASTERS TALK, UNWARNED OF PERIL RUN

### Malaspina Commander Surprised When Fishermen Protest Launch Seizures

Skippers of seized United States fishing vessels had not been warned that their statements would be used as evidence against them, and intimations of engine trouble had not been subjected to inquiry, Captain F. C. Laird of the Dominion Fisheries Protection cruiser Malaspina this morning informed Mr. Justice Archer Martin in Admiralty Court proceedings at the Courthouse.

His Lordship was informed that the commander of the cruiser had relied upon assurances by the skippers of the Tacoma, the Jeanette and the We that they had no intention of pleading engine trouble as excuse for being in Canadian harbours without authority. Captain Laird stated that when he received these assurances he had understood that the admissions would prevent later raising of pleas of engine trouble.

The three vessels were found by the Malaspina in company with others released on excursions, in Goose Harbor on the morning of May 6 last. Capt. Laird stated that he had not told the captains in formal words that they were under seizure, and, although he had told them to take their vessels to safe anchorage, he could not recall having then stated he had official instructions to keep the vessels in custody.

PLEAS NOT MADE

"Then Captain Eastman of the Tacoma put up this plea of sickness now advanced, when I found his vessel at Goose Island, the chances are he would have been warned off in the usual way," declared Capt. Laird. "I certainly would never have taken action for seizure of his vessel," he said, being warmly thanked by William Savage, counsel for the defence.

"I had Captain Olaf Hansen of the Jeanette had engine trouble at the time he was ordered to Kynumph from Goose Island, he would have been warned off in the usual manner," Capt. Laird continued, explaining that the general practice of the Fisheries protection service was to notify fishing vessels in trouble to repair and depart quickly from Canada's coastal waters.

THREE IN ONE

By consent of His Lordship, Crown and defence counsel this morning arranged that the evidence taken yesterday, in the action for condemnation of the Tacoma, should also apply in the proceedings against the Jeanette and the We, with the exception of special points of interest.

Evidence in the Tacoma proceedings closed yesterday afternoon, Capt. John A. Eastman being supported in his plea of illness as the cause of the illegal presence at Goose Harbor of his vessel.

NO ENGINE TROUBLE

This morning the crown recalled Capt. Laird of the Malaspina to the witness stand to tell of conversations with Capt. Olaf Hansen of the Jeanette. He was firm in denial that any positive claim of engine trouble had been advanced as the cause of the vessel's presence at anchor. On the contrary, Capt. Hansen had declared "could say we were here for engine trouble, but it would not be good; we are caught." This conversation was corroborated by Second Officer J. MacKay, but the witness believed that the remark had been made at Kynumph.

Argument on all three cases will be submitted at the conclusion of presentation of special points of interest.

Bay a day later than was stated by Capt. Laird, who asserted that conversation immediately followed the seizure at Goose Bay.

Capt. Olaf Hansen of the Jeanette told of engine trouble experienced the day before, and the necessity of safe anchorage as reason for his presence in Goose Harbor. He was still on the witness stand at the luncheon adjournment.

Mr. Savage, counsel for the defence in all three cases, is being supported by Winter S. Martin of Seattle, expert in United States admiralty law.

AUSTRALIANS' FLIGHT TO ENGLAND IS RECORD

(Continued from page 1)

tually decided to fly from England to the United States in the monoplane Southern Cross as soon as he had time to have his three motors overhauled.

When the captain and his three companions arrived here yesterday en route to London from Sydney, N.S.W., they were met by C. C. Malmgren of the Wright Motor Company, who was asked to accompany the plane to the station in order to supervise the overhauling.

The three Whirlwind motors of the plane have been flown about 500 hours.

As soon as Captain Kingsford-Smith has inspected four planes in London destined for the Australian service, he will start seriously on his plan to fly the Atlantic.

Shawnigan Lake

The regular monthly meeting of the Shawnigan Women's Institute was held in the S.L.A.A. Hall last Thursday.

Mrs. M. Winters, presiding, there was a good attendance of members. Mrs. A. E. Wheeler, library committee, reported a change of days for book exchange. They now are Tuesdays, Thursdays and Saturdays. The membership of the library is growing, books loaned averaging 600 a month.

Mrs. F. Gannon reported attending the Health Centre meeting at Duncan. A centre was very active, Shawnigan receiving very good service. A farewell tea was given to Miss Claxton, Health Centre superintendent, who is leaving for England. A presentation of two bathing booths was made as a mark of appreciation of her services. Miss Mitchell was appointed to succeed Miss Claxton.

Mrs. Kingsley, convener of the community betterment committee, will look after replacement of the buoy on the dangerous rock in the lake. Also will see that the ladies' and children's bathing booth is repaired and beach cleaned up.

SERVICE INC.

Her startled eyes swept from the salutation: "My darling Iris," to the single initial "B" with which the letter was concluded. Then, her breath drawn in sharply, she began to read: "My darling Iris: Please don't venture yourself and me at this time. I haven't written because it wasn't safe; it isn't safe now. I tried to explain, to convince you that our future happiness is at stake. I've been in a sweat of fear that Brainerd would learn of your telephone calls and of your visit to my apartments the other night. I couldn't admit you, darling. I would have been mad. You threaten to tell Morgan everything if I don't prove that I love you before the trial is over. God knows I love you, Iris. Haven't I proved it by putting my life and liberty in jeopardy for your sake? You've been so wonderful, so much more courageous than I, up till now. I never would have had the nerve to do what I did, if I had not had your brains and your courage back of me, if I had not known that it meant having you always, as soon as this force of a trial is over. It's unworthy of our love for you to be jealous of Alice Belton, darling. Can't you understand that I had to use her, that she was a necessary pawn in the game? I adore you, beloved. A little more patience and the world will be ours—B."

The letter trembled in Nan's hand, and for a sick, dizzy moment she thought she was going to faint. Then the necessity for action steadied her. There was no doubt at all that she held in her hand what any court would accept as a confession of Bert Crawford's guilt. How little Curtis Morgan had come to have it in his power; he'd probably taken it from his mother's handbag while she was like the conscienceless masquerade that he was, for small coins with which to satisfy some of his innumerable wants. But what did matter was: what was she to do with it? A confession, a confession of guilt from the man whom Morgan was even then hating. It'd turn evidence over to the district attorney and have the jury recalled. Morgan had said to her once.

### OUR BOARDING HOUSE

—AH WAITER, I AM SORRY TO SAY THE COFFEE SERVED IN ENGLAND IS SENDING ME TO FRANCE, EGAD!—IN MY WORD, THIS CHICORY IS NOT MY IDEA OF COFFEE AND SERVING IT WITH HOT MILK ONLY MAKES MATTERS WORSE!

—AHEM, IN A YEAR I WILL RETURN TO LONDON AND OPEN UP A CHAIN OF RESTAURANTS, SPECIALIZING IN AMERICAN COFFEE AND CREAM!—I WILL REAP A FORTUNE!

PARDON SIR, BUT MIGHT I SUGGEST THAT THE BOOT CAN BE WORN ON THE OTHER FOOT AS WELL, SIR!—WHY NOT START A CHAIN OF RESTAURANTS IN NEW YORK, SPECIALIZING IN SERVING ENGLISH COFFEE WITH HOT MILK,—IS THAT RIGHT?

AN EVEN BREAK

—By AHERN

might already have brought in its verdict.

"Maybe he will be found guilty! Why hadn't I thought of that alternative?" Nan's mulling thoughts took on a new turn as she battled Christmas shoppers on the crowded downtown streets. "I'll pray for him to be found guilty before I can reach the courthouse," she decided childishly. "Goodness knows that's the only prayer I can put any heart into."

Her lips moving wordlessly, she loitered through the crowds. The spirit of Christmas was everywhere but in Nan's heart. Salvation Army Santa Clauses dangled bells over iron pots and grinned at wide-eyed children through their white wool beards, women with their arms full of parcels admonished children to "Stay right by Mama, now!" Traffic cops struggled with hopeless jams of cars with unusual amiability; shop windows were crowded with useless dainties of pink silk and lace, and there was joy everywhere—but in Nan Carroll's heart.

"They wanna be killed, sister? Watch where you're going!" And traffic officer reached out and jerked her to safety. Then he grinned at her and wished her "Merry Christmas!" before he sent her on her way.

"If I killed I wouldn't have to tell him," Nan told herself wretchedly, but her life-loving body skipped out of every danger that threatened it in the crowded streets before she reached the courthouse.

The imminence of Christmas had cheated Crawford of a large audience for his verdict, whatever it might be. There were only a few loiterers about the courthouse as Nan ran panting up the steps. A deputy sheriff recognized her, greeted her with a "Merry Christmas, Miss Nan!"

"Any news yet, Bill? Or has Mr. Morgan finished his speech?"

"The Morning Sun reporter said they were expecting a verdict any minute," the man told her. "Mr. Morgan finished his speech about an hour ago, and the district attorney only took about ten minutes for his final summing up. Knows he's licked, I guess. You'll find Mr. Morgan in the judge's chambers, Miss Nan, unless the jury's coming in."

She thanked him and hurried into the courtroom where the Crawford case had been tried. There were less than a score of spectators, including two women feature writers, were idly talking and joking, and at the counsel table sat Iris Morgan and Bert Crawford, their heads close together, their voices low and earnest. At the eight Nan's anger rose again in a hot tide, and she beckoned to a bailiff loitering in the doorway.

"Tell Mr. Morgan that I must see him immediately," she ordered. "He's with the judge, I believe."

The man was turning away to obey when another bailiff appeared from the passage leading to the judge's chambers, his manner brisk and important.

"I'm afraid it's too late now, Miss Carroll," the bailiff said had addressed to her. "The judge is coming. Looks like the jury has reached a verdict."

Along with the other spectators, Nan sat at attention while the judge entered and took his seat. Then the members of the jury filed in, looking vastly relieved and proud of themselves. What a relief to them! Morgan hurried in and went straight to Crawford, throwing an arm around his shoulder, as if to demonstrate to the world that this man was his friend, no matter what the verdict might be.

There was no time to speak to him. It was too late anyway. . . .

An what is that verdict, gentlemen?" she heard Judge Haswell's grave voice inquire.

"We find the defendant not guilty!" the foreman answered loudly.

There came a few cheers, quickly broken off by the sharp rap of the judge's gavel. A moment later the judge had adjourned court; Crawford was blithely shaking hands with the jurors, and Iris Morgan, in an excess of joy, was throwing her arms about her husband's neck.

"That there's the greatest lawyer in this middle west," her bailiff friend told Nan feelingly. "It's got so a jury won't convict a man that John Curtis Morgan defends, because they believe him when he says a man's innocent. Been on his right proud to work for a man like that, Miss Carroll!"

"I am!" Nan choked—and fled.

She could stand no more. And if Morgan caught sight of her she would have to congratulate him. She could imagine the hurt in his eyes if he failed to do so. . . . Why, all these years he had brought his triumphs to her with the vanity of a small boy sure that she would understand. . . .

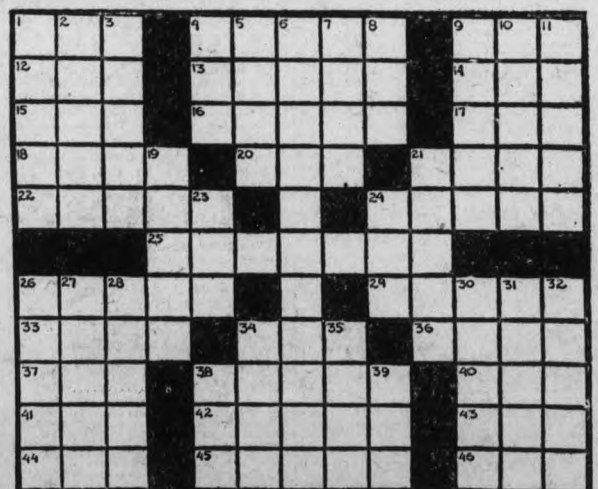

(To be continued)

## ON THE AIR

WEDNESDAY, JULY 10, 1929

**CFCT (475.9) Victoria, B.C.**  
6 p.m.—The closing market quotations.  
6:15 p.m.—The Sunset concert orchestra presents the following: A selection from "Rose Marie," a concert waltz, "Etudiana," an intermission, "Forget-Me-Not," "Warum," or "Why?" a selection from "Tom Jones," "A Vineyard Idyll," a suite of "Woodland Pictures."  
7:15 p.m.—"What's Doing in Town," Savory's Garden Bulletin: official weather report and forest fire summary; weekly radiobroadcast, "Canada's Musical Instrument Industry"; West Coast Information Service; "Lorie Watch," correct time signal.  
8 p.m.—Studio programme.  
8:30 p.m.—W. E. Harper will speak on "Discoveries in Astronomy," followed by musical numbers.  
9 p.m.—The Crystal Garden Comedy Company presents a comedy by John Gabbott, entitled "Phillips Comes Back."  
11 p.m.—The Crystal Garden orchestra.  
**National Broadcasting Company**  
5:30 p.m.—Land of Health.  
5:30-6:30 p.m.—Palmolive hour (Transcontinental).  
6:30-7 p.m.—NBC System, Stromberg-Carlson programme (Transcontinental).  
7:30 p.m.—NBC Balalaika orchestra.  
8:30 p.m.—"Roads to Romance."  
8:30 p.m.—Longene's correct time.  
8:30-9 p.m.—"Hill Billy Boys," NBC.  
10-11 p.m.—Cotton Blossom Minstrels.  
11-12 p.m.—"The Trocaderoans."  
**American Broadcasters' Programme**  
(KJL Seattle, carries the entire programme)  
6:30 p.m.—Kaiser Radio hour.  
6:30-7 p.m.—Composers' hour, Pacific Station orchestra.  
7:15 p.m.—Ocell and Sally.  
7:15-8 p.m.—Six Best Steps, Rhythm Aces with Jack Dean.  
8-9 p.m.—"Over Land and Sea," Pacific Station orchestra, Liborius Hauptmann, director.  
9:30 p.m.—John and Ned, with Metro and Cosmo.  
9:30-10 p.m.—Stoll's Capers with Rhythm Aces.  
10-11 p.m.—"Sleepy Time," Pacific Station orchestra.  
11-12 p.m.—Rhythm Aces, George Stoll, director, with Helen Troy and Yvonne Peterson.  
**KIX (340.7) Concord, Cal.**  
6-7 p.m.—Concert trio.  
7-7:30 p.m.—New broadcast.  
**KOW (696.4-1010 Kevs.) San Jose, Cal.**  
5:30 p.m.—Children's programme.  
5:30-6:45 p.m.—Musical programme.  
6:30-7 p.m.—Studio programme.

7:15-8 p.m.—Records.  
8-8:30 p.m.—The Story Book Lady.  
8:30-9 p.m.—Studio trio.  
9-10 p.m.—Meldor Masters.  
10-10:30 p.m.—Recital programme.  
10:30-11 p.m.—Pickwick Aviators.  
11-11:30 p.m.—Records.  
**KFWM (322.4-330 Kevs.) Oakland, Cal.**  
5:30-6 p.m.—World news.  
6-6:30 p.m.—The Watch Tower programme.

## CROSSWORD PUZZLE

**HORIZONTAL**

- A spout for fash.
- Pattern.
- Battering machine.
- Parfume.
- Swarming.
- Since.
- Tin container for preserved food.
- Covered with glazed blocks.
- Aeriform fuel.
- Smell.
- Finish this well-known phrase, which means from limit to limit, "From — to Beethoven."
- To admit.
- Of what type of stone is the emerald a variety?
- Stratagems.
- Inhabitants born in the place referred to.
- Diana.
- To what class of vertebrates do birds belong?
- Cold, silver or iron.
- Light rap.
- Epoch.
- Central part of an amphitheatre.
- Devoiced.
- Eye tumor.
- Acted as a model.
- Sheltered place.

**VERTICAL**

- Who's ladder is referred to in the story of an aunt's ascending and descending a ladder in a dream? (Bib.)
- To elude.
- High, masculine singing voice.
- Door run.
- Fetid.
- Falls into partial ruin.
- Opposite of odd.
- Child's game.
- Child's glass marble.
- Who save the "Ten Commandments" to the people?
- Portions of mill stones.
- Medieval.
- Unprofessional.
- To rot flax by exposure.
- Minimizes.
- Manifest.
- To reimburse.
- Dating from one's birth.
- Growing out.
- Wigwag.
- Valiant man.
- Hair on a horse's neck.
- Geographical drawing.
- Boy.

## Co-ops In Canada Almost In Chaos, Says President Good

Winnipeg, July 10.—"Co-operatively we are inching—almost in chaos," said W. C. Good of Paris, Ontario, in his presidential address to the congress of the Co-operative Union of Canada here to-day.

As yet, only a few Canadian co-operative organizations were linked together in the national body; only a few, therefore, were affiliated with co-operators in other countries through the international co-operative alliance, he added.

Private business has become national and frequently international in its scope; co-operative could not afford a more limited vision. Competition was being done away with because of its inherent wastefulness.

We now have to choose between private and public monopoly in many spheres of activity, Mr. Good stated.

In banking, transportation, manufacturing and merchandising, small enterprises were rapidly disappearing and great mergers and consolidations, many of them international in scope, were succeeding them.

"As against socialism, co-operation proposes to bring about a real world revolution by means which do violence to none," Mr. Good declared. "It proposes to meet the threat of private monopoly by democratizing it, proposes to establish a new order by building it slowly, steadily and surely within the old order."

"Whether industry shall be socialized in this way or that, the co-operative movement constitutes a vast school for the training of people in its democratic management," he said.

Mr. Good declared the movement did not attach sufficient importance to education. British societies, he pointed out, set apart more than \$1,000,000 a year to organize educational facilities for their members.

This is supplemented by a substantial portion of the income of the co-operative union. A co-operative college has been established at Manchester for ten years past.

"Another condition calls for some comment," Mr. Good said. "There is a tendency for organizations ostensibly co-operative in character to compete with one another for the business in the same territory. Such competition is absolutely foreign to the spirit and methods of the movement and ought not to be permitted."

Another condition calls for some comment, Mr. Good said. "There is a tendency for organizations ostensibly co-operative in character to compete with one another for the business in the same territory. Such competition is absolutely foreign to the spirit and methods of the movement and ought not to be permitted."

## The Best Start for a Hot Day

Better and much more enduring in effect than a cold bath is the daily glass of ENO'S "Fruit Salt." Its sparkling, bubbling purity cools and cleanses by gently removing the clogging waste and poisons from your system.

It isn't only the work you do that tires you. A system poisoned with impurities will make you feel tired. Try ENO as a thirst quencher and reviver. Let it be your safeguard against the oppressive heat of long summer days. You'll find it much more effective than so-called cold drinks and it has positively no injurious after-effects. ENO is cooling to look at . . . cooling to drink . . . cooling in what it does.

ENO'S "Fruit Salt" insures inner cleanliness. But remember there is only one ENO. Resolutely refuse substitutes.

The words "Fruit Salt" and ENO are the registered trade marks of J. C. ENO Ltd.  
Sole Representatives for North America:  
Harold F. Ritchie & Co. Ltd., 10-18 McCaul St., Toronto

## Woman Is Killed By Auto Driven By Son

Seattle, July 10.—Struck by an automobile driven by her son, Robert King, Mrs. Mary Dean died here last night. King was arrested by deputy sheriffs, who said both he and his mother had been drinking. He was held on an open charge.

## Smart Doings of Animals

**Dog Yearly Shows Gratitude to Benefactor**  
Several years ago Paul Oakley, a high school student of Gloucester, Mass., saw a big dog with an injured foot. He did not know the animal, but dressed the foot and fixed a bandage that eased the pain it gave the mongrel, apparently a mixture of collie and St. Bernard.

He had met the dog near his home and had taken him there for treatment. Thereafter the grateful animal came frequently to visit him, and repaid his kindness by keeping a close guard on the house.

Later Paul found that his dumb friend was named Prince and that he belonged to acquaintances some distance away. But while Prince was allowed to run free in the summer he was kept tied up in winter.

The following winter Paul saw nothing of Prince. But the very spring day that the dog was allowed his freedom he sped over to see his benefactor. This practice he has followed every year since.

Another condition calls for some comment, Mr. Good said. "There is a tendency for organizations ostensibly co-operative in character to compete with one another for the business in the same territory. Such competition is absolutely foreign to the spirit and methods of the movement and ought not to be permitted."

## SCHOOL DAYS

—By DWIG

WEDNESDAY, JULY 10

Eileen Millicent Dwyer, 1124 Mason Street, Victoria, B.C. (5).

Charity School Boy Became Great Lawyer

William Blackstone was an orphan. He was only twelve years old and he had just lost his mother. His father had died when the lad was very young. Now he was alone in the world. An uncle, who had been helping his mother ever since the father's death, took the boy home, but did not know what to do with him, as he had not enough money himself to educate the lad properly. However, he found a school which gave scholarships to boys who were

poor and deserving. Such boys lived in the school and were fed, clothed and educated. He applied for a place for William, and, since the boy made a good impression, he was told he could enter. On the opening school day the uncle took William and his small bag of clothes and left him at the school. The boy was shown to a little room and left to unpack. He stood, instead, and looked out of the window, and felt suddenly how he was really alone in the world. He always remembered this as the hardest moment of his life. Yet that little charity school boy, William Blackstone, born July 10, 1723, in London, grew up to become the greatest lawyer of England, and is still looked upon in history as the leading man of the law. BEDTIME STORY

Uncle Wiggily's Funny Balloon

(Copyright, 1929, by McClure Newspaper Syndicate)

By HOWARD R. GARIS

"Where is Nurse Jane, my dear?" asked Uncle Wiggily one morning, as hopping through the hall, he saw Tingle, one of his little rabbit girls, colling her jumping rope into a circle. "Nurse Jane is out in the garden, Daddicums," answered Tingle. "What is she doing?" the rabbit gentleman went on. For he noticed that there was a button off his shirt and he wanted his muskrat lady housekeeper to sew it on, as Mrs. Longears had gone downtown shopping. "What is Nurse Jane doing in the garden?" asked Uncle Wiggily. "And all of a sudden Tangle, who was Tingle's sister, began to sing: 'Nurse Jane is in the garden, Hanging up the clothes. I hope no Blackbird comes along To bite her on the nose.' 'Ha! Ha!' laughed Uncle Wiggily. 'I hope the same. And to make sure Nurse Jane doesn't get bitten by a blackbird, I think I'll hop out in the yard myself.' 'You can help her hang up the clothes,' sang Tingle, who had finished colling her jumping rope and was now ready to get out and play with her sister Tangle.

The rabbit gentleman had hold of it.

But when Uncle Wiggily had hopped down to the yard to tell Nurse Jane about the button that needed sewing on his shirt he saw that the muskrat lady housekeeper had hung up all the clothes except a large sheet. With this sheet Nurse Jane was having trouble. For the wind was blowing very hard and flapping the sheet about as though it were the sail of a ship. It was all Miss Fuzzy Wuzzy could do to get one end of the sheet on the line. But when she had done that the wind whipped the other end about so there was much trouble. Nurse Jane had a clothes-pin in her mouth ready to use when she had the edge of the sheet over the line. But when she held the sheet in place with one paw, and reached her other paw to take the clothes-pin out of her mouth, along would come a strong puff of wind and away the other end of the sheet would go, flapping and flopping. "Let me help you," said Uncle Wiggily kindly. "I wish you would!" squeaked Nurse Jane. "I never knew the wind to blow so hard. Why, see the pillow cases! They are like blown up bags." "So they are—almost like balloons!" chuckled Mr. Longears as he held the first end of the big sheet on the line while Nurse Jane fastened the second end with a clothes-pin. But with the rabbit gentleman's help Nurse Jane finally got the sheet over the line and that, being the last of the clothes she had to hang up, she had time to sew the button on Uncle Wiggily's shirt. "And now I may go adventuring!" said the rabbit gentleman as he hopped away from his bungalow. Away he went, high and low, here and there, looking for something to amuse him or

To-morrow's Horoscope

THURSDAY, JULY 11, 1929

Until late to-day the planetary government is fortunate for those who dwell on the earth. According to astrology this is a twenty-four hours that should be well spent for the stars are of fair promise. The President of the United States and all whom he has appointed to important posts have the best possible aspects to influence them through the first year, the seven annuities. While there is a sign supposed to indicate that labor is to take offense at some policy of the Federal government, the rule of the stars is most fortunate. Farmers are now subject to a slightly adverse direction of the planets, which presages dissatisfaction that will be temporary. Crops in the main should be extraordinarily good this summer, and marketing conditions much improved, according to the aspects of Saturn. The new moon of this month presages scandals in more than one American City, where persons in high social standing will be involved. Heavy death tolls among writers, publishers and educators are forecast for the summer, as this is interpreted as one of the signs of the advancement of the new era in which all that is old is eliminated. Disturbance in shipping is indicated for this month when certain phases of foreign commerce come under affliction. Many marriages and a low birth rate are prophesied at this time, when nature pauses in its forces for racial adjustment. The negro population of the United States continues under the most favorable aspects making for progress in all the arts. Success in the movies is foreshadowed. While the aspects continue threatening far theatres of every sort, the autumn is to be marked by promising readjustments, astrologers foretell. This a read as a lucky day for making contracts and for most ambitious steps in commercial advancement. Persons whose birthdate it is have the augury of a year that brings business or professional success. It is adverse for many domestic affairs. Children born on this day are usually extreme fond of home and they should have executive ability of a high order. The subjects of this sign usually have high ideals and the courage to live up to them. John Quincy Adams, sixth President of the United States, was born on this day, 1767. (Copyright, 1929)

out of which a story might be made, but no adventures happened. "Alas! Must I go back home with nothing jolly to think about?" asked Uncle Wiggily of a red spotted Squiggle Bug who was taking a drink from the milkweed plant. "Maybe you could find an adventure if you went back home," buzzed the Squiggle Bug. "That sometimes happens," "Maybe," said Uncle Wiggily. "I think the wind is blowing so hard that it has blown all the adventures away." However, he hopped back to his bungalow and he got there just as Nurse Jane was taking the clothes down off the line. They had soon dried in the strong, hot wind. There was just one pillow-case left as Uncle Wiggily arrived, and it was puffed out like a blown up bag. "I'll take the pillow-case off the line for you," kindly offered Mr. Longears. "Thank you, so much!" squeaked Nurse Jane. Uncle Wiggily took off one clothes-pin, holding a corner of the pillow-case in his paw. Then he took off the other clothes-pin. And no sooner had he done so than the wind blew harder than before. It puffed out the pillow-case like a big, white balloon. And as the rabbit gentleman had hold of it up he went in the air, with his queer balloon. Up and up and up! "Oh! Oh!" cried Nurse Jane. "Come down, Mr. Longears!" "I can't! I can't!" shouted the bunny gentleman. "The pillow-case balloon is carrying me away." And truly it was. But Nurse Jane gave a run and a jump and, just as Uncle Wiggily was going to be blown over the chimney, she caught hold of his coat tails and pulled him down to the ground. The wind spilled out of the pillow-case and it was no longer a balloon. "Oh, how frightened I was when I saw you sailing away!" said Nurse Jane. "Ha! Ha!" laughed the rabbit. "It was only a jolly adventure. But thank you, just the same, for pulling me down." So everything was all right. And if the ice-pick doesn't break the shell when it takes the egg out for a ride, I'll tell you next about Uncle Wiggily and the baby mouse.

## Victoria Will Be Host to 300 U.S. Sailors For Five Days

### Three Destroyers To Be Here To-morrow

U.S.S. Farenholt, U.S.S. Corry and U.S.S. Hull Will Arrive at Ogden Point To-morrow Morning and Will Remain Until Monday; Sports Programme Being Planned; Personnel of Fleet Announced.

On a five-day courtesy visit to British Columbia waters, six destroyers, of the United States navy will steam up the Straits to-morrow morning from California, three of them proceeding to Vancouver and three of them turning into Victoria where they will dock at the Ogden Point piers until Monday.

Up to an early hour this afternoon George A. Bucklin, United States consul at Victoria, had received no definite word as to the exact time the destroyers would dock here. He expected, however, that they would be along in the morning. Whether or not they would stop off at Port Angeles for a few hours on their way here, Mr. Bucklin was unable to say.

In command of Commander S. O. Greig, U.S.N., there will be 300 men aboard the three destroyers which are the Farenholt, the Corry and the Hull. Commander Greig, in company with Mr. Bucklin, and the commanders of the Corry and the Hull will pay official visits to His Honor, the Lieutenant Governor at Government House, Premier Tomlin, Mayor Anson, Commander Murray at Esquimalt, and Brigadier General J. Sutherland Brown at Port Point immediately after the destroyers are docked here. The official calls will later be returned aboard the vessels.

Plans are now in the hands of the Chamber of Commerce and the James Bay Athletic Association for a sports programme to entertain the men of the ships during the stay in Victoria. Although the programme is not yet complete, swimming, rowing, baseball and other attractions will occupy a prominent place on the bill. Smokers and dances will also be held to entertain the men of the ships, while several private social functions will honor the commanders and officers.

U.S.S. Farenholt, regular officers—Commander S. O. Greig, commanding; Lieutenant A. B. Kerr, Lieutenant P. C. Schaele, Lieutenant A. Jackson, Ensign J. L. Woodbury, Ensign R. J. Moore, Ensign P. C. Bumpus, Lieutenant F. Brown, Lieutenant S. Adams, Lieutenant C. O. Cichler, Lieutenant H. E. Walker, Lieutenant-Commander C. H. Weaver.

U.S.S. Corry, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. Gill, Lieutenant C. H. Perdue, Lieutenant R. C. Wilkinson, Ensign R. B. Randolph, Ensign R. B. Palmer, Lieutenant M. Young.

U.S.S. Hull, regular officers—Lieutenant-Commander R. E. Keating, Lieutenant R. E. Cronin, Ensign K. A. Knowles, Ensign C. W. Friesen, Ensign G. A. Prichard, Reserve officers—Lieutenant H. H. ### SALVAGE EFFORTS ON ISLANDER SAFE ARE DISCONTINUED

Juneau, July 10.—Efforts to salvage the treasure from the steamer Islander, which sank August 15, 1901, were discontinued yesterday when Capt. S. H. Finch, who directed diving for the treasure, said that the divers had been in progress for sixty days and Captain Finch's contract had expired. He declared he had failed to find anything.

### SELECT NAMES FOR NEW BOATS

C.P.R. Craft Building at Govan Will Be Named Princess Elizabeth and Joan

When the two new passenger boats now building for the C.P.R. at the Govan plant of the Fairfield Shipbuilding company are launched within the next few weeks they will be christened Princess Elizabeth and Princess Joan, according to an announcement made yesterday in Vancouver by D. C. Coleman, vice-president in charge of the western lines.

The first vessel will be named Princess Elizabeth, in honor of the young daughter of the Duke and Duchess of York.

The second boat will perpetuate a name that has long been associated with the company's steamer services on this coast.

The new vessels, which will each have berthing accommodation for 435 passengers and a daylight capacity of 1,500 passengers, will be delivered here next year, well in advance of the opening of the 1930 tourist season.

Both craft were designed by Capt. C.

### REMOTE CHANCE FOR TWENTY-SIX ON MISSING SHIP

Seattle, July 10.—The family of Captain William M. Dooley of the Glida Scudari, a steamship missing since she sailed for Japan from here November 5, said yesterday that Capt. C. S. Cochrane of the United States coastguard cutter Chelan had unofficially reported to them that final search of the Aleutian Islands had failed to reveal any trace of the vessel.

The ship carried a crew of twenty-six. There was a remote possibility, shipping men said, that survivors might have reached the Siberian coast. The Glida Scudari, formerly the Empress of Montreal and before that the Canadian Trader, was a vessel of 2,176 tons net. She was bought by Mrs. C. Scudari and registered at Genoa, Italy. Later she was transferred to the United States flag, with New York as her home port.

D. Neroutos, manager of the B.C. Coast Steamship Service, specially for night service between Victoria and Vancouver, and the contracts for this construction were placed by Capt. Neroutos late last year when he visited the United Kingdom.

### Around the Docks

From ports in China and Japan, the N.Y.K. liner Shidzuoka Maru will arrive at the William Head quarantine station on Friday morning at 8 o'clock, according to wireless advice received in the city this morning by A. H. Hebb, local agent, from the master of the vessel. The ship should be alongside the Rithet piers about an hour and a half later. For this port the vessel has 162 tons of general cargo, eighty-nine bags of Canadian mail, nine bags for the seaplane, and fourteen passengers, seven in the first cabin and seven steerage.

The Canadian National freighter Canadian Observer is expected to dock at the Ogden Point piers about 10 o
